OTHER ATTENDEES

COUNCIL ASSESSMENT STAFF	Nichole Askew, Ryan Cole, Liam Frayne, Cassandra McFarlane
OTHER	Michelle Burns, Leanne Harris, Carolyn Hunt

KEY ISSUES DISCUSSED

- There is an expectation that the proposal will meet the new site-specific planning controls.
- Pre-eminence of corner tower element is expected with stepping down from the corner. This and the streetscape needs further resolution.
- Improved address and entry through increased width of site access between Building A and B
- SEPP 65/ ADG considerations including sunlight, natural ventilation and noise mitigation. Mechanical ventilation needs further consideration.
- Overall FSR compliance for overall site FSR, however for individual buildings exceed specific building FSR. Cl 4.6 required for deviation from the standard
- Height non-compliance for 3 of 4 building and reliance on Cl 4.6 to justify.
- Only entitled to a portion of FSR bonus.
- More detail required on:
 - Traffic and parking management
 - Waste management
 - Storage
