Hi Jessica,

The issue of this BFSA was completed outside of the standard process for the issue of a response, and a custom letter was issued.

The custom letter didn't automatically generate a BFSA 'certificate' with the response, however these are not required. The GTAs are the formal response.

If you have any further queries please contact me.

Regards

Steve.

Hi Stephen,

As discussed, the Southern Regional Planning Panel have reviewed the attached correspondence and have requested clarification that the advice received from the RFS dated 1 April (attached) is complete and satisfies the requirements for a Bush Fire Safety Authority under Section 100B of the Rural Fires Act 1997 to be issued subject to the General Terms of Approval being met.

Could you please review and confirm as per the above.

Thank you,
