[EXTERNAL EMAIL] This email was sent from outside of Wollongong City Council – be cautious, particularly with links and attachments.

Good afternoon Anne.

Thank you for taking the time to discuss this issue with me.

As discussed with yourself and Charlie, please find attached the MRV rear lift waste collection vehicle that Remondis has in service in the Wollongong CBD that offers a better clearance height of 2.742m and improved turning radius of 14m,

Wheelbase (mm)		3105	3690
Front (Kg)		3092	3112
Rear (Kg)		1418	1498
Total (Kg)		4510	4610
Maximum Body/Payload (Kg) @ GVW		11480	11380
Dimensions (mm)			
A	Wheelbase	3105	3690
B	Overall length (over bumpers)	5690	6702
C	Front overhang	1362	1362
D	Rear overhang	1313	1740
E	Cab width (over wings)	2420	2420
F	C/line f/axle to back of cabequip	day	385
		sleeper	965
G	Usable frame length	day	4955
		sleeper	4375
H	Cab gap		120
K1	Cab height (unladen*)	std roof	2765
K2		high roof	3420
L1	Frame height at centre line of axle	S	1041
		/P	904
L2	Frame height at end of frame	S	1080
		/P	886
M	Wheel bump clearance		150
	Turning circle (wall to wall)		12340
* Reduce by 3mm for air suspension models			

If you could confirm that this is an acceptable alternate solution given the advantages to driveway width, street presentation and pedestrian access and that this acceptable for this case in isolation, I will prepare updated swept path details based upon this information.

Regards,

Stephen Falkner | Managing Director - Queensland
