Dear Dialina Day

Re: Controlled Activity Approval Not Required

Dev Ref: DA/0221/1920

Description: Alterations and additions to waste or resource management facility

Location: Gorman Road GOULBURN 2580

The Natural Resources Access Regulator (NRAR) has reviewed documents for the above development application and considers that, for the purposes of the Water Management Act 2000 (WM Act), a controlled activity approval is not required and no further assessment by this agency is necessary.

Controlled Activity Not Required

The proposed works are not located on waterfront land as defined by the WM Act - The proposed works are greater than 40m from top of bank of the watercourse.

Further information on controlled activity approvals under the WM Act can be obtained from NRAR's website: www.water.nsw.gov.au, go to Water licensing > Approvals > Controlled activities.

Yours Sincerely
