

PPSSTH-73 – WAGGA WAGGA

ADDENDUM TO ASSESSMENT REPORT FOR DA20/0409 – UNSW BIOMENDICAL SCIENCE FACILITY

APPLICANT'S CONSENT TO RECOMMENDED CONDITIONS OF CONSENT (CROWN DEVELOPMENT)

This document is provided as an addendum to the Section 4.14 assessment report for the subject development Application. The recommended conditions of consent have been referred to the applicant, UNSW, seeking its consent (as the Crown) for imposition these conditions in accordance with Clause 4.33 (Division 4.6) of the Environmental Planning and assessment Act 1979. The document summarises feedback received from UNSW with respect to its acceptance and provides further discussion regarding requested amendments including Council comments.

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
PRIOR TO COMMENCEMENT OF WORKS				
C2	Prior to the commencement of any works, the applicant shall provide revised plans detailing the following amendments:			
	a) The provision of a path and gate providing service access (non-vehicular) from the bin storage enclosure to the proposed turning bay in Doris Roy Lane as approved under Development Consent DA20/0708.	Accepted	No change	
	b) The provision of publicly accessible bicycle parking facilities within or adjacent to the Lewis Drive forecourt area.	Accepted	No change	
	c) The provision of a mountable kerb to provide a change of grade between the existing Lewis Drive vehicular pavement	Accepted	No change	

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
	and the proposed shared footpath/delivery zone.			
	<p>d) The incorporation of all noise mitigation recommendations contained in the approved Noise Impact Assessment (Revision B dated 17 April 2020).</p> <p>The revised plans shall be submitted to Council and shall be to the satisfaction of the General Manager or their delegate.</p>	Accepted	No change	
C3	<p>The applicant shall provide final design details of the proposed electricity substation blast wall demonstrating that the required height and length of the wall has been minimised based on the final specification and positioning of the substation. In this regard, the siting and design of the substation shall be considered where this can assist in minimising the height and length of the required blast wall.</p> <p>In addition to this information, the final design details shall identify how existing landscaping located immediately to the east of the wall (within the front setback of the adjacent property) will be protected and supplemented to screen the extent of the wall when viewed from the east. Consideration shall also be given to potential screening/landscaping along the western edge of the substation easement to reduce its visual impact of the substation enclosure and blast wall when viewed from the west.</p>	<p>The final design of the substation and blast wall requires input from a Level 3 ASP designer and Essential Energy. This process cannot be completed until the Subdivision Certificate is issued for the proposed two lot subdivision (subject of DA20/0410) and a MMI number is provided. Based on Essential Energy's current process and timeframes, it is likely to take approximately 3-4 months for the design to be finalised.</p> <p>So as not to delay construction of the BSC, this condition should be amended to allow time for the Subdivision to be completed, and the substation design process to be finalised.</p>	<p><u>Within 6 months of approval</u>, the applicant shall provide final design details of the proposed electricity substation blast wall demonstrating that the required height and length of the wall has been minimised based on the final specification and positioning of the substation. In this regard, the siting and design of the substation shall be considered where this can assist in minimising the height and length of the required blast wall.</p> <p>...</p>	<p>No objection.</p> <p>Recommended that condition be reworded as proposed by UNSW.</p>

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
	The final design details shall be submitted to Council and shall be to the satisfaction of the General Manager or their delegate prior to commencement of any works associated with the installation of the substation or construction of the blast wall.			
C4	<p>Prior to commencement of construction, the Applicant must prepare a Construction Environmental Management Plan (CEMP) and it must include, but not be limited to, the following:</p> <ul style="list-style-type: none"> a) Details of: <ul style="list-style-type: none"> i. hours of work; ii. 24-hour contact details of site manager; iii. management of dust and odour to protect the amenity of the neighbourhood; iv. stormwater control and discharge; v. measures to ensure that sediment and other materials are not tracked onto the roadway by vehicles leaving the site; vi. external lighting in compliance with AS 4282-1997 Control of the obtrusive effects of outdoor lighting; vii. community consultation and complaints handling; b) Construction Traffic and Pedestrian Management Sub-Plan (see Condition C5); c) Construction Noise and Vibration Management Sub-Plan; 	Accepted	No change	

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
	<p>d) Construction Waste Management Sub-Plan;</p> <p>e) Construction Dust Management Sub-Plan;</p> <p>f) Construction Soil and Water Management Sub-Plan including Erosion and Sediment Control Plan;</p> <p>g) an unexpected finds protocol for Aboriginal and non-Aboriginal heritage and associated communications procedure;</p>			
	<p>h) details of tree protection areas to ensure no secondary impacts to extant trees not to be removed;</p> <p>i) waste classification (for materials to be removed) and validation (for materials to remain) be undertaken to confirm the contamination status in these areas of the site.</p> <p>The CEMP shall be submitted to Council and shall be to the satisfaction of the General Manager or their delegate prior to commencement of any works.</p>			

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
C5	<p>A Construction Traffic and Pedestrian Management Sub-Plan (CTPMSP) must be prepared in consultation with Council. The CPTMP must specify, but not limited to, the following:</p> <ul style="list-style-type: none"> a) be prepared by a suitably qualified and experienced person(s); b) be prepared in consultation with Council and TfNSW; c) detail the measures that are to be implemented to ensure road safety and network efficiency during construction in consideration of potential impacts on general traffic, cyclists and pedestrians and bus services; d) assess cumulative impacts associated with other concurrent construction activities (including the adjacent hospital carpark development); e) assess the road safety at key intersections and locations subject to heavy vehicle movements and high pedestrian activity; f) detail construction program, the anticipated construction duration and milestones and events during the construction process; g) detail anticipated peak hour and daily truck movements to and from the site including strategies to avoid peak traffic periods; h) detail access arrangements for workers to/from the site, emergency vehicles and service vehicle movements; 	Accepted	No change	

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
	<ul style="list-style-type: none"> i) detail strategies for the provision of displaced on-site parking during these activities j) detail temporary cycling and pedestrian access during construction; k) detail proposed construction vehicle access arrangements (including management of loading and unloading of materials on the site) at all stages; l) detail heavy vehicle routes, access and parking arrangements; m) include a Driver Code of Conduct to: <ul style="list-style-type: none"> i. minimise the impacts of earthworks and construction on the local and regional road network; ii. minimise conflicts with other road users; iii. minimise road traffic noise; and iv. ensure truck drivers use specified routes; n) detail temporary traffic controls, including detours and signage; o) include procedures for notifying the local community about project-related traffic impacts; p) include procedures for managing impacts to bus stops; q) include procedures for receiving and addressing complaints from the community about development-related traffic; 			

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
	<p>r) include measures for minimising potential for conflict with buses, school zone operating times, emergency vehicles and other motorists as far as practicable;</p> <p>s) include procedures for responding to any emergency repair or maintenance requirements;</p> <p>t) include a program to monitor the effectiveness of these measures; and</p> <p>u) if necessary, detail procedures for notifying residents and the community (including local schools), of any potential disruptions to routes.</p> <p>The CTPMSP shall be submitted to Council and shall be to the satisfaction of the General Manager or their delegate prior to commencement of any works</p>			
C6	Prior to commencement of works, a stormwater drainage plan shall be submitted to Council for approval that identifies pipe and pit levels, inverts and sizes. This plan shall also show existing and proposed surface contours within the site and along its boundaries with immediately adjacent properties	Accepted	No change	
C7	Prior to the commencement of any works, the applicant must engage a suitably qualified person to prepare a pre-construction dilapidation report. This report shall include clear photos and descriptions of	Accepted	No change	

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
	all existing public infrastructure adjacent to the subject site. A copy of the dilapidation report shall be submitted to and shall be approved by Council.			
C8	<p>No works are to take place to any services without prior written approval from the relevant authority.</p> <p>NOTE: Underground assets may exist in the area that is subject to your application. In the interests of health and safety and in order to protect damage to third party assets please contact Dial before you dig at www.1100.com.au or telephone on 1100 before excavating or erecting structures.</p>	Accepted	No change	
C9	No part of the development, including cut, fill, or footings is to encroach the stormwater easement located on the eastern side of the proposed building. Prior to the commencement of any works, the applicant is required to submit plans that show that the footings address the angle of influence taking into account the depth of existing/proposed infrastructure in the easement.	Accepted	No change	
C10	<p>Prior to works or activities commencing within the road reserve, approval under Section 138 of the Roads Act 1993 is required from Council.</p> <p>A written application for Consent to Work on a Road Reserve is required to be submitted to and approved by Council. This shall include the preparation of a certified Temporary Traffic Management Plan (TTP) for the works.</p>	Accepted	No change	

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
	It should be noted that work in the existing road reserve can only commence after the plan has been submitted and approved and then only in accordance with the submitted TTP. Please contact Council's Activities in Road Reserves Officer on 1300 292 442.			
C11	<p>Prior to the commencement of works, an Activity Approval is required under Section 68, Part B - 4, 5 and 6, of the Local Government Act 1993 for any public infrastructure sewer / stormwater works, where that work is proposed to be carried out on public or private or Council owned land.</p> <p>NOTE: Prior to the commencement of works a bond may be required to be lodged with Council for public infrastructure works. Refer to Council's Section 68 Activity Approval Application Guide for detail.</p>	Accepted	No change	
C12	<p>Prior to the commencement of works, an Activity Approval is required under Section 68, Part B - 4, 5 and 6, of the Local Government Act 1993 for any private internal sewer / stormwater works being carried out on the site.</p> <p>The licensed plumber must submit to Council, at least two (2) days prior to the commencement of any plumbing and drainage works on site a "Notice of Works".</p> <p>NOTE: A copy of the Notice of Works form can be found on Council's website.</p>	Accepted	No change	

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
C13	<p>Prior to the commencement of works erosion and sediment control measures are to be established and maintained to prevent silt and sediment escaping the site or producing erosion. This work must be carried out and maintained in accordance with:</p> <ul style="list-style-type: none"> a) The approved Construction Environmental Management Plan (CEMP). b) Managing Urban Stormwater: Soils and construction - Volume 1 (latest edition). <p>All vehicles involved with the construction and/or demolition process and departing the property with demolition material, spoil, debris and loose material must have their loads covered before entering the public road. Suitable measures shall be in place to ensure that sediment is not tracked onto the roadway by vehicles leaving the site. This may require the installation of an all-weather temporary driveway for all construction vehicles accessing and leaving the site.</p> <p>It is an offence to allow, permit or cause materials to pollute waters.</p>	Accepted	No change	
C14	<p>Prior to works commencing a container must be erected on site for the enclosure of all building rubbish and debris, including that which can be wind blown. The container shall be approved by Council and be retained on site at all times prior to</p>	<p>This condition is accepted, however the requirement to have the container approved by Council should be removed.</p>	<p>...</p> <p>Prior to works commencing a container must be erected on site for the enclosure of all building rubbish and</p>	<p>No objection.</p> <p>Recommended that condition be reworded as proposed by UNSW.</p>

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
	<p>the disposal of rubbish at a licenced Waste Management Centre. The container must be retained on site for the duration of all demolition and construction works.</p> <p>Materials, building rubbish/debris, site facilities/buildings or machinery associated with the development must not be stored or stacked on Council's footpath, nature strip, road reserve or roadway.</p> <p>Weighbridge certificates, receipts or dockets that clearly identify where waste has been deposited must be retained. Documentation must include quantities and nature of the waste. This documentation must be available to Council upon request.</p> <p>Note: Wagga Wagga City Council's Gregadoo Waste Facility is the EPA licensed facility within the Local Government Area to accept waste material</p>		<p>debris, including that which can be wind blown. The container shall be approved by Council and be retained on site at all times prior to the disposal of rubbish at a licenced Waste Management Centre. The container must be retained on site for the duration of all demolition and construction works.</p> <p>...</p>	

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
C15	<p>Prior to works commencing on site, toilet facilities must be provided, at or in the vicinity of the work site on which work involved in the erection or demolition of a building is being carried out, at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be:</p> <ul style="list-style-type: none"> a) a standard flushing toilet connected to a public sewer, or b) if that is not practicable, an accredited sewage management facility approved by Council, or c) if that is not practicable, any other sewage management facility approved by Council. <p>NOTE 1: The provision of toilet facilities in accordance with this condition must be completed before any other work is commenced and the toilet facility must not be removed without the prior written approval of Council.</p> <p>NOTE 2: "Vicinity" in this condition is defined to mean within 50 metres of the subject building site.</p> <p>NOTE 3: The toilet facilities are to comply with all WORK COVER NSW requirements.</p>	<p>This condition is accepted, however Note 1 should be amended to remove the requirement for Council to approve the removal of the toilet facilities.</p>	<p>....</p> <p>NOTE 1: The provision of toilet facilities in accordance with this condition must be completed before any other work is commenced and the toilet facility must not be removed without the prior written approval of Council.</p> <p>.....</p>	<p>No objection.</p> <p>Recommended that condition be reworded as proposed by UNSW.</p>
C16	<p>Prior to any works, a compliance certificate under Section 307 of the Water Management Act 2000 must be obtained in respect of the development relating to water management works that may be required in connection with the development.</p>	<p>Accepted</p>	<p>No change</p>	

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
	<p>NOTE1: 'Water management work' is defined in s283 of the Water Management Act to mean a 'water supply work', 'drainage work', 'sewage work' or 'flood work'. These terms are defined in that Act.</p> <p>NOTE 2: Riverina Water is responsible for issuing compliance certificates and imposing requirements relating to water supply works for development in the Council's area. An application for a compliance certificate must be made with Riverina Water. Additional fees and charges may be incurred by the proposed development - please contact Riverina Water to ascertain compliance certificate water supply related requirements.</p> <p>NOTE 3: The Council is responsible for issuing compliance certificates and imposing requirements relating to sewerage, drainage and flood works for development in its area.</p> <p>NOTE 4: Under Section 306 of the Water Management Act 2000, Riverina Water or the Council, as the case requires, may, as a precondition to the issuing of a compliance certificate, impose a requirement that a payment is made or works are carried out, or both, towards the provision of water supply, sewerage, drainage or flood works.</p> <p>NOTE 5: The Section 64 Sewer base figure is \$7712.84</p>			

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
	<p>The Section 64 Sewer contribution (updated by the CPI117.1/100.5) required to be paid is \$8986.80</p> <p>NOTE 6: The Section 64 Stormwater base figure is NIL. No Section 64 Stormwater contribution is required.</p> <p>NOTE 7: Section 64 contributions shall be indexed in accordance with CPI annually at the commencement of the financial year.</p> <p>NOTE 8: The figures outlined in this consent are based on the current rate of CPI. Please be advised that CPI changes on a regular basis and you are advised to contact Council prior to payments being made, to ensure no further CPI increases/decreases have occurred since the date of this consent.</p>			
C17	<p>The Applicant must submit to Essential Energy a Design Information Request for determination. Such application will determine the electrical requirements of the proposed development and also consider whether further infrastructure, such as a dedicated pad mount substation, is required for the proposed development. Please note that there may be significant costs involved and these are payable by the Applicant – refer to Essential Energy’s Contestable Works Team for requirements via email contestableworks@essentialenergy.com.au.</p>	Accepted	No change	

	Draft Condition Wording	Comment	Proposed Condition Wording	Council Comment
C18	<p>It is noted that signage is proposed on the corner of Edward Street and Lewis Drive. Essential Energy has existing overhead and underground powerlines in this location. Prior to any works commencing on the construction of this proposed signage, the following information will need to be provided to Essential Energy for review and comment:</p> <ul style="list-style-type: none"> a) All dimensions of the proposed signage, including all elevations, height, width etc. b) The height from the top of the proposed signage to the nearest conductor (powerlines) and nearest power pole/s c) The distance from the location of the proposed signage to underground powerlines (located across the Lewis Drive street frontage of the property). d) Details of all materials that the proposed signage is to be constructed out of e) Details as to whether power will be connected to the proposed signage (illuminated signage). 	Accepted	No change	
DURING WORKS				
C19	The applicant shall prepare and implement a program of works to ensure that the maximum number of car parks are available for use across the hospital campus site through the construction process.	The Local Health District manages the parking across the hospital site on a campus-wide basis. It is not the responsibility of UNSW.	The applicant shall prepare and implement a program of works to ensure that the maximum number of car parks are available for use across the hospital campus	<p>No objection.</p> <p>Recommended that condition be deleted as proposed by UNSW.</p>
