Proposed Quarry Extension - Lot 5 DP 255133 Federal Highway, Wollongorang

Dear Laterals Planning,

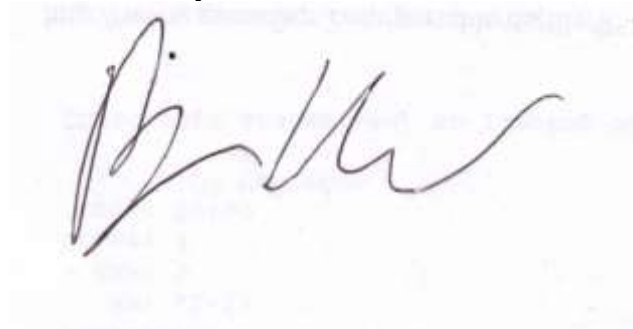

**Draft Development Consent Conditions for a Proposed Quarry Extension - Lot 5 DP 255133
Federal Highway, Wollongorang**

I refer to Transport for New South Wales (TfNSW) , Upper Lachlan Council and the Joint Regional Planning Panel for the following draft condition (30)

“Truck movements to and from the property shall not exceed a maximum of two vehicle movements per day”

We recommend this condition be altered to a “maximum of five truck movements” to take into account inclement weather. The increase in truck movement is very low and is less than one truck per hour. The traffic impacts of five truck movements is insignificant and can be accommodated in the local road network without any noticeable increase in queues, delays etc.

Yours sincerely,

Benny Chen
