

## Comments or Objections in relation to this development

**NB:** Please be advised that Information provided within this section / page (that is., any comments and/or objections) will not be kept confidential and will become open access information under the Government Information (Public Access) Act 2009.  
Council may refer to any comments / objections you have provided in discussion with the applicant while negotiating design amendments.  
Furthermore, all comments received on page 2 of this form will be published on Council's open access website.

Please provide reasons as to why you support or object to Development Application No.: 234.1 , 2021

I actually don't oppose the Development.

My main concern are the trees being removed.

Tree canopies, the environment, existing homes for native birds & wildlife - how hard are you working to maintain greenery and a healthy native surroundings - vs the perils of a concrete jungle?
