Your Ref: CNR-8880

William Pillon
Hawkesbury City Council
c/o: ePlanning Portal

Dear William,

Proposal: IDA referral for sand extraction and processing facility involving reclamation of artificial irrigation inlets
Property: 374 Freemans Reach Rd, Freemans Reach (Lots 1 & 2, DP 77951) – Hawkesbury River

Thank you for your referral of 16/6/2020 seeking comment on this proposal from DPI Fisheries, a division of NSW Department of Primary Industries.

DPI Fisheries is responsible for ensuring that fish stocks are conserved and that there is no net loss of key fish habitats upon which they depend. To achieve this, DPI Fisheries ensures that developments comply with the requirements of the *Fisheries Management Act 1994* (FM Act) (namely the aquatic habitat protection and threatened species conservation provisions in Parts 7 and 7A of the Act, respectively), and the associated *Policy and Guidelines for Fish Habitat Conservation and Management (2013)*. In addition, DPI Fisheries is responsible for ensuring the sustainable management of commercial, recreational and Aboriginal cultural fishing, aquaculture, marine parks and aquatic reserves within NSW.

DPI Fisheries has reviewed the proposal in light of these provisions and has no objections, subject to the proponent meeting the General Terms of Approval that follow. As per s.4.47(3) of the *Environmental Planning and Assessment Act 1979*, any consent issued by Council must be consistent with these GTAs.

1. Local Land Services (LLS) must be consulted to review the inlet reclamation design, construction methodology and the revegetation plan. Any recommendations from LLS must be adopted; and
2. The rehabilitated river bank must not be rock lined; and
3. Environmental safeguards (silt curtains, booms etc.) are to be used during construction to ensure that there is no escape of turbid plumes into the aquatic environment. Turbid plumes have the potential to smother aquatic vegetation and have a deleterious effect on benthic organisms; and
4. If a Controlled Activity Approval is obtained from the NSW Natural Resources Access Regulator (NRAR), then a Part 7 permit for dredging and reclamation under the FM Act is not required. If a Controlled Activity Approval is not obtained from NRAR, the proponent must obtain a Part 7 permit from DPI Fisheries **prior to any works on site**. Permit application forms are available from the DPI Fisheries website at: <http://www.dpi.nsw.gov.au/fisheries/habitat/help/permit> .

If Council or the proponent require any further information, please do not hesitate to contact me on (02) 8437 4981.

Yours sincerely,

Sarah Conacher
Fisheries Manager, Coastal Systems
