Hi Pukar,

Apologies for the confusion. The DA referral was received, however, it did not get registered as a separate DA in our system.

I have looked at the previous RFS response for DA19/0595, and it will remain the same for DA19/0821 considering the 100m temporary APZs from the effective bushfire prone vegetation.

I have requested our admin officer to register the DA so that I am able to provide a response as soon as possible.

Regards
