KEY ISSUES DISCUSSED

- The applicant be required to provide the Council with all development plans showing details of the proposed development for which consent is sought in order for the plans to be cited in the Notice of Determination of the DA. Each such plan must contain a title and a reference number. It is not acceptable practice to only include the development plans in the SEE and other supporting documents.
- Council expressed concern that the local waste management facility has limited capacity and may not be able to adequately dispose of the amount of waste that will be generated from the establishment and future decommissioning of the proposed solar energy facility.
