Executive Summary

SLR Consulting Pty Ltd (SLR) was engaged by Aqualand St Leonard Pty Ltd to prepare a stage 1 preliminary site investigation (PSI) for 33 Herbert Street, St Leonards, NSW (the site).

The assessment was undertaken in accordance with SLR's offer of services dated 20 February 2015 (ref: 610.14997 Offer of Services 20150220).

SLR understands the following:

- The site is proposed for redevelopment with multistorey high density residential apartments, ground floor commercial land use and three basement parking levels;
- A preliminary contamination assessment is required for inclusion with a planning proposal for rezoning of the site from Industrial IN2 to Residential R3.

The objectives of this project were to:

- Assess the potential for contamination to be present on the site, as a result of past and present land use activities;
- Provide advice on the suitability of the site (in the context of contamination), for the proposed redevelopment; and
- Provide recommendations for additional investigation, management or remediation of the site (if warranted).

SLR undertook the following scope of work to address the project objectives:

- a desktop review;
- a site walkover; and
- data assessment and reporting.

Based on a review of available historical data, the following land use activities were identified as potentially occurring on the site:

- Rail related activities;
- Industrial activities; and
- Demolition activities.
- Contaminant laydown mechanisms associated with these land use activities are typically 'top down', meaning that contamination could arise from activities occurring at the surface of the site.
- It is noted that, since the occurrence of the identified land use activities, the site has been extensively redeveloped, including the excavation of two basement levels across the site footprint (conservatively assumed to be to a depth of 6m below existing ground level). It is considered both conservative and reasonable to assess that potential 'top down' land contamination associated with historical land use activities, would have been removed during the extensive and deep soil excavation required to construct the current basement levels. This assertion is considered to both a reasonable and conservative basis for informing an assessment of site suitability.

Executive Summary

- Further to the assertion above, in the highly unlikely event that residual contamination was present in residual soils beneath the existing basement, the proposed development involves the extension of the current basement to a 3rd level, which will require the excavation of soils across the site a further 3m (resulting in a final bulk excavation depth of approximately 9m across the site). This additional excavation required to construct the 3rd basement level provides even greater confidence that potential 'top down' land contamination associated with historical land use activities, will have been removed from the site.

Based on a review of the available desktop search data and observations made during the site walkover, SLR makes the following conclusions and recommendations:

- The potential for unacceptable contamination to be present on the site, as a result of past and present land use activities, is considered to be low; and
- The site is considered suitable (in the context of land contamination) for the proposed high density residential, overlying ground floor commercial, overlying 3 basement parking levels.;

This report must be read in conjunction with the limitations set out in Section 10 of this report.

1 INTRODUCTION

1.1 Background

SLR Consulting Pty Ltd (SLR) was engaged by Aqualand St Leonard Pty Ltd to prepare a stage 1 preliminary site investigation (PSI) for 33 Herbert Street, St Leonards, NSW (the site).

The assessment was undertaken in accordance with SLR's offer of services dated 20 February 2015 (ref: 610.14997 Offer of Services 20150220).

SLR understands the following:

- The site is proposed for redevelopment with multistorey high density residential apartments, ground floor commercial land use and three basement parking levels;
- A preliminary contamination assessment is required for inclusion with a planning proposal for rezoning of the site from Industrial IN2 to Residential R3.

1.2 Objectives

The objectives of this project were to:

- Assess the potential for contamination to be present on the site, as a result of past and present land use activities;
- Provide advice on the suitability of the site (in the context of contamination), for the proposed redevelopment; and
- Provide recommendations for additional investigation, management or remediation of the site (if warranted).

1.3 Scope of Work

SLR undertook the following scope of work to address the project objectives:

- a desktop review;
- a site walkover; and
- data assessment and reporting.

2 SITE IDENTIFICATION

The locality of the site is presented in Figure 1.

The site is legally identified as Lot 3 in DP772072 and SP51339 (formerly Lot 1 and 2 in DP744175) and is zoned IN2 – Light Industrial.

The site is rectangular in shape and occupies an area of approximately 3,500m².

The layout of the site is presented in Figure 2.

3 SITE SETTING

3.1 Geology

The Geological Survey of NSW Sydney 1:100,000 Geological Series Sheet 9130 Edition 1 (1983) indicates that site is likely to underlain by Middle Triassic Ashfield Shale, comprising black to dark grey shale and laminite.

3.2 Topography

The topography of the site is generally flat, with a very minor east and south facing slopes. Based on survey data, the site sits at an approximate elevation of 80m Australian height datum (AHD).

3.3 Hydrogeology

The nearest surface water courses to the site appears to be Long Bay (Middle Harbour), located approximately 2,500m to the east, and Gore Cove, located approximately 1,700m to the south of the site.

Based on site topography and the distance to the nearest identified surface water courses, it is considered that groundwater flow in the immediate vicinity of the site is likely to be towards the south.

A search of the NSW Natural Resources Atlas (NSW-NRS, www.nratlas.nsw.gov.au) conducted on 12 August 2015 identified one registered groundwater works features within the search area (500m radius of the site). The feature was a bore registered for domestic purposes, and located approximately 500m to east south east of the site. The standing water level in this bore was 35m.

A copy of the registered groundwater bore search record is provided in Appendix A.

3.4 Acid Sulfate Soils

The Department of Land and Water Conservation (DLWC) acid sulfate soil (ASS) risk map for Prospect / Parramatta (Edition 2) indicates that the map class description for the site is "no known occurrence", meaning acid sulfate soils are not known or expected to occur in these environments. The environmental risk associated with this map class description is "land management activities are not likely to be affected by acid sulfate soil materials".

Council has not adopted a policy to restrict the development of the land by reason of the occurrence of acid sulfate soils.

It is noted that acid sulfate soils typically occur at elevations <10m AHD, while the site is located at an elevation of approximately 80m.

Further assessment of potential or actual acid sulfate soils on the site is considered not warranted.

4 SITE HISTORY

4.1 Aerial Photography

A review of a selection of historical aerial photographs was undertaken. Observations made during the review are presented in Table 1.

Table 1 Aerial Photography Review

Year of Photograph	Site Land Use Observation	Surrounding Land Use Observations
1943 (SIX viewer)	There is a building located adjacent to the northern site boundary, a building in the northern portion of the site and a building adjacent to the south eastern boundary of the site. The buildings may be commercial/industrial in nature. There appears to be an access road across the site joining up with the rail corridor located to the east of the site.	Commercial / industrial to the north, rail corridor and low density residential / open space to the east, Herbert Street and an on grade brickworks with quarry area beyond to the west and commercial / industrial to the south
1951 (black and white)	No significant change from 1943 image	No significant change from 1943 image.
1965 (black and white)	The building adjacent to the south eastern boundary is not visible. Two new buildings are present in the southern portion of the site (in the general vicinity of the access road observed in 1943) and adjacent to the south eastern boundary of the site.	No significant change from 1943 image.
1978 (black and white)	No significant change from 1965 image.	Parts of the quarry / brickworks appear to have been decommissioned.
1986 (colour)	The building in the southern portion of the site appears to have been replaced / modified.	Portions of the former brickworks appear to have been redeveloped for commercial / industrial use. Significant medium / high density development further south. Commercial redevelopment of land further north.
1999 (colour)	The site has been redeveloped into a commercial style building, across the footprint of the site.	Further commercial development to the west. High density residential development to the south, and east.
2002 (colour)	No significant change from 1999 image.	No significant change from 1999 image.
2007 (Google Earth)	No significant change from 2002 image.	No significant change from 2002 image.
2014 (Nearmap)	No significant change from 2007 image.	No significant change from 2007 image.

The aerial photography review indicates a potential for land contaminating activities to have occurred on the site:

- Potential industrial activities; and
- Demolition of former buildings.

4.2 Historical Land Titles

A search of historical land title ownership records was undertaken on 25 March 2015. In summary, the records indicate:

- Railway Commissioner / State Rail Authority ownership of various portions of the site between 1891 and 1990;
- Minister for Public Works ownership of a portion of the site between 1894 and 1922;

- A mix of commercial and potential industrial ownership of portions of the site between 1912 and 1995, including North Sydney Brick and Tile Company Limited and Lime Products (North) Pty Ltd; and
- Commercial and strata ownership of portions of the site from 1995 to date and 2014 to date.

The land title information review indicates a potential for land contaminating activities to have occurred on the site, related to railway activities and commercial activities. This potential should be considered further in the context of other lines of enquiry, particularly the aerial photography review and the site walkover.

Numerous leases and sub leases were identified during the search, but not investigated because they have been surrendered or expired due to effluxion of time.

One easement was reported for the site, for a substation, a right of way and easement for electricity purposes.

A copy of the title search record is presented in Appendix B.

4.3 Regulatory Authorities

4.3.1 NSW Environment Protection Authority

A search of the NSW EPA contaminated land public register of record of notices (maintained under Section 58 of the Contaminated Land Management Act 1997) was undertaken on 20 March 2015. The search results indicated that, with regard to the site, there are no:

- orders made under Part 3 of the Contaminated Land Management Act 1997 (CLM Act);
- approved voluntary management proposals under the CLM Act that have not been fully carried out and where the approval of the Environment Protection Authority has not been revoked;
- site audit statements provided under Section 53B of the CLM Act that relate to significantly contaminated land;
- where practicable, copies of anything formerly required to be part of the public record;
- actions taken by EPA under Section 35 or 36 of the Environmentally Hazardous Chemicals Act 1985.

A search of the NSW EPA Protection of the Environment Act public register of licence, applications and notices (maintained under Section 308 of the Protection of the Environment Operations Act 1997) was undertaken on 20 March 2015. The register contains information on:

- environment protection licences;
- applications for new licences and to transfer or vary existing licences;
- environment protection and noise control notices;
- penalty notices issued by the EPA;
- convictions in prosecutions under the POEO Act;
- the results of civil proceedings;
- licence review information;
- exemptions from the provisions of the POEO Act or regulations;
- approvals granted under clause 9 of the POEO (Control of Burning) Regulation;
- approvals granted under clause 7A of the POEO (Clean Air) Regulation;

- any mandatory audits required to be undertaken in relation to a licence;
- each pollution study required by a condition of a licence;
- each pollution reduction program required by a condition of a licence; and
- each penalty notice issued in relation to a premises.

The search did not identify any records for the site.

A search of the NSW EPA public register of contaminated sites notified to NSW EPA under Section 60 of the Contaminated Land Management Act (as of 6 March 2015) was undertaken on 20 March 2015. The search did not identify any records for the site or for any properties located adjacent to the site.

A copy of the search records is presented in Appendix C.

4.3.2 Council Records

Planning certificates (dated 23 March 2015) issued by Willoughby City Council under Section 149 of the Environmental Planning and Assessment Act 1979 were reviewed. There were no notations provided under Clause 19 Site Verification Certificates, in relation to matters prescribed by Section 59 (2) of the Contaminated Land Management Act 1997.

Willoughby Council has advised that, when there are no notations provided under Clause 19, reviewers of the certificate should be aware that this means that Council has no information on file indicating that the land is:

- significantly contaminated land within the meaning of the Act;
- subject to a management order within the meaning of the Act;
- the subject of an approved voluntary management proposal within the meaning of the Act;
- the subject of an ongoing maintenance order within the meaning of the Act; and
- the subject of a site audit statement within the meaning of the Act.

A copy of the planning certificates is presented in Appendix D.

4.3.3 WorkCover NSW

A search of the SCID and microfiche records held by WorkCover NSW was undertaken for the site on 4 August 2015. The search did not locate any records pertaining to the site.

A copy of the search record is presented in Appendix E.

4.4 Previous Contamination Assessments

There was no previous contamination assessment reports made available for review.

5 SITE WALKOVER

A site walkover was undertaken by a suitably experienced SLR environmental consultant (Craig Cowper) on 5 August 2015. The purpose of the site walkover was to make observations of the site and adjacent land uses (relevant to land contamination). SLR was accompanied by Jason Knevett (facilities manager) during the walkover. A discussion and photographic record of observations made are presented in Section 5.1 to 5.10.

5.1 Site Features

The following site features were observed during the walkover.

- A three storey commercial building (offices), constructed of masonry and metal;
- A ground floor café;
- Minor paving and landscaping on the western side of the site;
- A loading dock style area at the northern end of the site; and
- A two storey basement carpark across the footprint of the site.

Photo 5.1.1 View of western side of building, looking east

Photo 5.1.2 View of western side of building and landscaped areas, looking south

Photo 5.1.3 View of loading dock area

Photo 5.1.4 View of loading dock area

Photo 5.1.5 View of basement carpark entrance driveway at northern end of building

Photo 5.1.6 View of basement level 1 parking

Photo 5.1.7 View of basement level 2 parking

Photo 5.1.8 View of eastern side of building, looking south (rail corridor to the east)

Site features are also presented in the site layout plan in Figure 2.

5.2 Site Drainage

Observations made during the site walkover indicate that site drainage is likely to include:

- roof top water flows to downpipes and subsurface drainage infrastructure;
- surface overland flow; and
- surface infiltration where soil permeability permits.

A drainage pit was observed in the level 2 basement area containing water which appeared to be getting pumped out (based on observed control panel on the wall adjacent to the pit). Mr Knevetts indicated the level 2 basement is subject to minor flooding on occasion and that the pit may also be associated with groundwater removal. There was no odour coming from the pit and no discoloration or sheen was observed in the water.

The site was generally flat with sloping predominantly towards the east and south.

5.3 Wastes

There no was evidence of wastes being stored /dumped on the site.

5.4 Fill

There was no evidence observed of significant or widespread filling at the site. The landform on site was consistent with the landform on surrounding properties. The presence of two basement parking levels across the footprint of the site, indicated a very low likelihood of fill material being present on the site.

5.5 Chemical Use and Storage

5.5.1 Fuels and Chemicals

There was no apparent visual evidence of bulk fuel or chemical use/storage on site.

5.5.2 Underground and Aboveground Storage Tanks

There was no evidence of underground storage tanks (bowzers, dip/fill points or vent pipes) or of above ground storage tanks.

5.6 Asbestos

There was no evidence of potential asbestos containing materials observed on the surface of the site

It is noted that a hazardous building materials survey was not within the scope of this investigation.

5.7 Phytotoxicity

There was no visual evidence observed of significant or widespread phytotoxic impact (i.e. plant stress or dieback).

5.8 Odours and Staining

Olfactory evidence of odours or visual evidence of widespread/significant staining on the surface of the site was not detected. Olfactory evidence of odours was not detected in the basement area.

5.9 Incidents and Complaints

There was no information provided to suggest any incidents had occurred at the site or that complaints had been made about the site.

5.10 Current Adjacent Land Uses

Land uses observed on the properties adjacent to the site are summarised in Table 2.

Table 2 Adjacent Land Uses

Adjacent boundary	Land Use
North	Commercial (plumbing supplies business)
East	North shore rail corridor, with mixed residential and recreational
West	Herbert Street, then commercial
South	High density residential with basements

6 DATA QUALITY ASSESSMENT

The sources of data relied upon for this assessment included:

- NSW Environment Protection Authority;
- NSW Natural Resources Atlas;
- NSW Land and Property Information;
- Department of Land and Water Conservation;
- WorkCover NSW;
- Google Earth;
- Nearmap;
- Willoughby City Council;
- Observations made in the in the field by SLR.

Observations made in the field were generally consistent with information viewed from relevant data provided by third parties during the desktop review.

The quality assessment of fieldwork and desktop data indicates that the data is adequately complete, comparable, representative, precise and accurate for the purpose of interpretation within the objectives of this investigation.

7 DISCUSSION

Based on a review of available historical data, the following land use activities were identified as potentially occurring on the site:

- Rail related activities;
- Industrial activities; and
- Demolition activities.

Contaminant laydown mechanisms associated with these land use activities are typically 'top down', meaning that contamination could arise from activities occurring at the surface of the site.

It is noted that, since the occurrence of the identified land use activities, the site has been extensively redeveloped, including the excavation of two basement levels across the site footprint (conservatively assumed to be to a depth of 6m below existing ground level). It is considered both conservative and reasonable to assess that potential 'top down' land contamination associated with historical land use activities, would have been removed during the extensive and deep soil excavation required to construct the current basement levels. This assertion is considered to both a reasonable and conservative basis for informing an assessment of site suitability.

Further to the assertion above, in the highly unlikely event that residual contamination was present in residual soils beneath the existing basement, the proposed development involves the extension of the current basement to a 3rd level, which will require the excavation of soils across the site a further 3m (resulting in a final bulk excavation depth of approximately 9m across the site). This additional excavation required to construct the 3rd basement level provides even greater confidence that potential 'top down' land contamination associated with historical land use activities, will have been removed from the site.

8 CONCLUSIONS AND RECOMMENDATIONS

Based on a review of the available desktop search data and observations made during the site walkover, SLR makes the following conclusions and recommendations:

- The potential for unacceptable contamination to be present on the site, as a result of past and present land use activities, is considered to be low; and
- The site is considered suitable (in the context of land contamination) for the proposed high density residential, overlying ground floor commercial, overlying 3 basement parking levels; and

This report must be read in conjunction with the limitations set out in Section 10 of this report.

10 LIMITATIONS

This report is for the exclusive use of Aqualand St Leonard Pty Ltd. No warranties or guarantees are expressed or should be inferred by any third parties. This report may not be relied upon by other parties without written consent from SLR Consulting.

This report has been prepared based on the scope of services (see below). SLR Consulting cannot be held responsible to the Client and/or others for any matters outside the agreed scope of services. Other parties should not rely upon this report and should make their own enquiries and obtain independent advice in relation to such matters.

This report has been prepared by SLR Consulting with reasonable skill, care and diligence, and taking account of the timescale and resources allocated to it by agreement with the Client. Information reported herein is based on the interpretation of data collected (data, surveys, analyses, designs, plans and other information), which has been accepted in good faith as being accurate and valid.

It should be noted that many investigations are based upon an assessment of potentially contaminating processes which may have occurred historically on the site. This assessment is based upon historical records associated with the site. Such records may be inaccurate, absent or contradictory. In addition documents may exist which are not readily available for public viewing.

Except where it has been stated in this report, SLR Consulting has not verified the accuracy or completeness of the data relied upon. Statements, opinions, facts, information, conclusions and/or recommendations made in this report ("conclusions") are based in whole or part on the data obtained, those conclusions are contingent upon the accuracy and completeness of the data. SLR Consulting cannot be held liable should any data, information or condition be incorrect or have been concealed, withheld, misrepresented or otherwise not fully disclosed to SLR Consulting leading to incorrect conclusions.

Should the report be reviewed for any reason, the report must be reviewed in its entirety and in conjunction with the associated Scope of Services. It should be understood that where a report has been developed for a specific purpose, for example a due diligence report for a property vendor, it may not be suitable for other purposes such as satisfying the needs of a purchaser or assessing contamination risks for classifying the site. The report should not be applied for any purpose other than that originally specified at the time the report was issued.

Report logs, figures, laboratory data, drawings, etc. are generated for this report by SLR consultants (unless otherwise stated) based on their individual interpretation of the site conditions at the time the site visit was undertaken. Although SLR consultants undergo training to achieve a standard of field reporting, individual interpretation still varies slightly. Information should not under any circumstances be redrawn for inclusion in other documents or separated from this report in any way.

PLAN MICROFILMED

ON MICROFILM BY UNIVERSITY MICROFILMS

Drawn from information obtained from the Office Copy of the Public Works Department.
Checked on Head Office County and Parish Maps and Original Plans.
Plan Examined 1869. 11th Dec 914.
Plan approved by the Chief Surveyor.
17 Dec 1874

GAZ. No. 723 OF 16.12.1890 FOLIO 9600

GOVERNMENT RAILWAYS.

EXTENSION—NORTH SHORE RAILWAY TO MILSON'S POINT.

IT is hereby notified that the construction of a Railway from the North Shore Railway to Milson's Point has been duly authorised, under the provisions of the "Public Works Act of 1888," and there is now open for inspection at the Office of the Minister for Public Works, the said Minister being the Constructing Authority for the said line, a plan of the said line and of the lands through which it will pass, together with a book of reference, in which is set forth a description of the said lands and the names of the owners and proprietors thereof, so far as the same can be ascertained. All persons, therefore, who may be interested in the said lands to be affected by the said line, are hereby required to forward to the said Constructing Authority, within one month from the first date of the publication hereof, a notice in writing of any objection that may appear to them to exist to the adoption of the said line or any part thereof, or to any of the works proposed in connection therewith.—Dated at Sydney, this tenth day of December, in the year of our Lord one thousand eight hundred and ninety.

(L.S.) BRUCE SMITH,
Constructing Authority.

The Seal of the Constructing Authority was affixed hereto, at Sydney, this tenth day of December, 1890, in the presence of—

[9689] D. C. M'LACHLAN.

GAZ. No. 171 OF 13.3.1891 FOLIO 2002

GOVERNMENT RAILWAYS.

EXTENSION—NORTH SHORE RAILWAY TO MILSON'S POINT.

Notice of Confirmation of Plan and Book of Reference.

WITH reference to the notice of the Minister for Public Works, dated 10th day of December, 1890, relative to the taking of certain lands required for the purpose of making a Railway between the North Shore Railway and Milson's Point, and to make and complete certain works and conveniences in connection therewith: Notice is hereby given that no valid objection having been made to the taking of the lands required for the said Railway, or to the erection of the said works, the said plan and book of reference have been duly confirmed by His Excellency the Governor, with the advice of the Executive Council, in accordance with the "Public Works Act of 1888."

(L.S.) BRUCE SMITH,
Constructing Authority.

The Seal of the Constructing Authority was affixed hereto, at Sydney, this twenty-fourth day of February, in the year of our Lord one thousand eight hundred and ninety-one, in the presence of—

[1547] D. C. M'LACHLAN.

SCHEDULE ONE HEREINBEFORE REFERRED TO

The Transferor hereby grants/reserves

Notes (k) and (l)

Full, free and unimpeded right:

- (a) for the State Rail Authority of New South Wales ("Authority") to erect place and maintain on each part of the Servient Tenement shown in the plan annexed to this Transfer as "Site of Proposed Easement for Overhead Wiring Structures" ("Easement Sites") all equipment, cables, poles and other structures necessary or desirable in connection with the Authority's overhead wiring and to have the equipment, cables, poles and other structures supported vertically and horizontally by the soil of the Servient Tenement;
- (b) for the Authority to maintain on the Easement Sites any equipment, cables, poles and other structures necessary or desirable in connection with the Authority's overhead wiring present or erected on those sites at the date of creation of this easement and to have that equipment and those cables, poles and other structures supported vertically and horizontally by the soil of the Servient Tenement; and
- (c) for the Authority and every person authorised by it with any tools, implements and machinery necessary for the purpose but subject to the taking of all reasonable precautions to ensure as little inconvenience as possible is caused to the occupants of the Servient Tenement to enter and remain for a reasonable time on the Servient Tenement for the purpose of inspecting, cleansing, maintaining, repairing, renewing, augmenting and replacing the equipment, cables, poles and other structures necessary or desirable in connection with the Authority's overhead wiring or any part of them and for any of those purposes to open the soil of the Easement Sites to the extent necessary PROVIDED that the Authority and any person authorised by the Authority must take all reasonable precautions to ensure as little disturbance as possible is caused to the surface of the Easement Sites and must restore that surface as nearly as practicable to its original condition.

SCHEDULE TWO HEREINBEFORE REFERRED TO

SCHEDULE THREE HEREINBEFORE REFERRED TO

Notes (n) and (l) The Transferee hereby covenants with

(For continuation of SCHEDULE (C) see annexure(s) hereto)

This form is only to be used for the transfer of land together with the granting or reservation of easements and/or the creation of restrictive covenants. For other transfers use forms RP 13, RP 13B, RP 13C, as appropriate.

This dealing should be marked by the Stamp Duties Division, Department of Finance before lodgment at the Land Titles Office.

Typewriting and handwriting should be clear, legible and in permanent dense black or dark blue non-copying ink.

Alterations are not to be made by erasure; the words rejected are to be ruled through and initialled by the parties to the dealing in the left-hand margin.

If the space provided is insufficient, additional sheets of the same size and quality of paper and having the same margins as this form should be used. Each additional sheet must be identified as an annexure and signed by the parties and the arresting witnesses.

Registered mortgagees, chargees and lessors of the servient tenement should consent to any grant or reservation of easement; otherwise the mortgage, charge or lease should be noted in the memorandum of prior encumbrances.

The signatures of the parties and the attesting witnesses should appear below the last provision in the last completed schedule.

Rule up all blanks

The following instructions relate to the side notes on the form.

(a) Description of land

- (1) **TORRENS TITLE REFERENCE.**—Insert the current sentence to the Folio of the Register for the land being transferred, e.g. 1358P/12345 or Vol.12834 Fol. 128.
- (2) **PARTIAL RELEASE.**—If part only of the land in the folio of the Register is being transferred, delete the word "WHOLE" and insert the lot and plan number, partition, etc. See also sections 327 and 327AA of the Local Government Act, 1910.
- (3) **LOCALITY.**—Insert the locality shown on the Certificate of Title, e.g., at Chullora. If the locality is not shown, insert the Parish and County, e.g., Parish of Lismore Co. Flou.

(b) **Tenement panel.**—Insert the current Folio Identifier or Volume and Folio of the Certificate of Title for both the servient and dominant tenements of the easements, e.g., 135/SP12345 or Vol. 12634 Fol. 126, &c. This panel is also to be completed for covenants by the transferor.

(c) Show the full name, address and occupation or description.

(d) If the estate being transferred is a lesser estate than an estate in fee simple, delete "fee simple" and insert appropriate estate.

(e) Delete if only one transferee. If more than one transferee, delete either "joint tenants" or "tenants in common", and, if the transferees hold as tenants in common, state the shares in which they hold.

(f) In the memorandum of prior encumbrances, state only the registered number of any mortgage, charge or lease (except where the consent of the mortgagor, chargor or lessor is furnished) and of any writ recorded in the Register.

(g) Delete whichever words are inappropriate.

(h) Execution.

GENERALLY (1) Should there be insufficient space for execution of this dealing, use an annexure sheet.

(b) The certificate of correctness under the Real Property Act, 1909, must be signed by all parties to the transfer, each party to execute the dealing in the presence of an adult witness, not being a party to the dealing, to whom he/she is personally known. The solicitor for the transferee may sign the certificate on behalf of the transferor. The solicitor's name (not that of his/her firm), to be typewritten or printed adjacent to his/her signature.

Any person falsely or negligently certifying is liable to the penalties provided by section 147 of the Real Property Act, 1900.

ATTORNEY (18) If the transfer is executed by an attorney for the transferor, the attorney must sign the form of execution and the form of execution must indicate the extent of his/her authority, e.g. "All by/for my attorney (or receiver or delegate, as the case may be) XY pursuant to power of attorney registered Book No. _____.

11. If the transfer is a secured transfer, the Authority shall, in addition to the requirements of the preceding paragraph, also ensure that the transfer is in accordance with the provisions of the Companies Act, 1993, relating to the transfer of shares in a company. The Authority shall also ensure that the transfer is in accordance with the provisions of the Companies Act, 1993, relating to the transfer of shares in a company.

(1) Insert the name, postal address, Document Exchange reference, telephone number and delivery box number of the lodging party.

(j) The lodging party is to complete the LOCATING OF DOCUMENTS panel. Place a tick in the appropriate box to indicate the whereabouts of the Certificate of Title. List, in an abbreviated form, other documents lodged, e.g., stat. dec. for statutory declaration, obo. for probate, L/A for letters of administration, &c.

(k) State the nature of the easement (see, e.g., section 181A of the Conveyancing Act, 1919) and accurately describe the site of the easement. The grant or reservation of easement (other than an easement in gross) must comply with section 88 of the Conveyancing Act, 1919. If not applicable, rule through this space.

(i) Annexures should be of the same size and quality of paper and have the same margins as the transfer form. Each such annexure must be identified as an annexure and signed by the parties and the attesting witnesses. Any plan annexed should comply with regulation 37 of the Real Property Act regulations, 1970.

(m) This space is provided for any restrictive covenant by the transferor (which must comply with section 86 of the Conveyancing Act, 1919). If not applicable, rule through this space.

(n) This space is provided for any restrictive covenant by the transferee (which must comply with section 86 of the Conveyancing Act, 1919). If not applicable, rule through this space.

WILLOUGHBY
CITY COUNCIL

Certificate No: 33070
Receipt No: 1493702
Issue date: 23-Mar-2015
Customer Ref: 610.14997.00000:14353

1. RELEVANT PLANNING INSTRUMENTS AND DEVELOPMENT CONTROL PLANS

(1) Environmental Planning Instruments

As at the date of this certificate the above mentioned land is affected by the following environmental planning instruments:

Willoughby Local Environmental Plan 2012

State Environmental Planning Policy No. 19 - Bushland in Urban Areas
State Environmental Planning Policy No. 21 - Caravan Parks
State Environmental Planning Policy No. 30 - Intensive Agriculture
State Environmental Planning Policy No. 32 - Urban Consolidation (Redevelopment of Urban Land)
State Environmental Planning Policy No. 33 - Hazardous and Offensive Development
State Environmental Planning Policy No. 50 - Canal Estate Development
State Environmental Planning Policy No. 55 - Remediation of Land
State Environmental Planning Policy No. 62 – Sustainable Aquaculture
State Environmental Planning Policy No. 64 - Advertising and Signage
State Environmental Planning Policy No. 65 - Design Quality of Residential Flat Development
State Environmental Planning Policy No. 70 - Affordable Housing (Revised Schemes)
State Environmental Planning Policy (Major Development) 2005
State Environmental Planning Policy (Infrastructure) 2007
State Environmental Planning Policy (Miscellaneous Consent Provisions) 2007
State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007
State Environmental Planning Policy (Exempt and Complying Development Codes) 2008
State Environmental Planning Policy (Affordable Rental Housing) 2009
State Environmental Planning Policy (State and Regional Development) 2011
State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004
Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005

(2) Proposed Environmental Planning Instruments

As at the date of this certificate the above mentioned land is affected by the following proposed environmental planning instruments:

Draft State Environmental Planning Policy No. 65 - Design Quality of Residential Flat Development (Amendment 3)

(3) Development Control Plans

As at the date of this certificate the above mentioned land is affected by the following development control plans:

Development Control Plan 2005 - Sydney Foreshore and Waterways Area

**PLANNING CERTIFICATE ISSUED UNDER SECTION 149(2)
ENVIRONMENT PLANNING AND ASSESSMENT ACT, 1979**

WILLOUGHBY
CITY COUNCIL

Certificate No: 33070
Receipt No: 1493702
Issue date: 23-Mar-2015
Customer Ref: 610.14997.00000:14353

The plan applies to all development proposals within the foreshores and waterways area identified in SREP (Sydney Harbour Catchment) 2005 - (Refer to the Foreshores and Waterways Area Map).

Willoughby Development Control Plan

2. ZONING AND LAND USE

(a) Zone Identity

IN2 Light Industrial

(b), (c), (d) (Development)

Zone IN2 Light Industrial – under Willoughby Local Environmental Plan 2012

Objectives of zone

- *To provide a wide range of light industrial, warehouse and related land uses*
- *To encourage employment opportunities and to support the viability of centres*
- *To minimise any adverse effect of industry on other land uses*
- *To enable other land uses that provide facilities or services to meet the day to day needs of workers in the area*
- *To support and protect industrial land for industrial uses*
- *To identify and preserve industrial land to meet the current and future light industrial needs of Willoughby and the wider region*
- *To accommodate industrial development that provides employment and a range of goods and services without adversely affecting the amenity, health or safety of residents in adjacent areas.*
- *To protect the viability of business zones in Willoughby by enabling development for the purposes of offices if they are used in conjunction with industrial, manufacturing, warehousing or other permitted uses on the same land*
- *To improve the environmental quality of Willoughby by ensuring that land uses conform to land, air and water quality pollution standards and environmental and hazard reduction guidelines*
- *To accommodate uses that, because of demonstrated special building or site requirements or operational characteristics, cannot be or are inappropriate to be located in other zones.*

Permitted without consent

Nil

Permitted with consent

Building identification signs; Business identification signs; Depots; Industrial training facilities; Light industries; Neighbourhood shops; Pubs; Roads; Take away food and drink premises; Timber yards; Vehicle sales or hire premises; Warehouse or distribution centres; Any other development not specified in item 2 or 4.

**PLANNING CERTIFICATE ISSUED UNDER SECTION 149(2)
ENVIRONMENT PLANNING AND ASSESSMENT ACT, 1979**

WILLOUGHBY
CITY COUNCIL

Certificate No: 33070
Receipt No: 1493702
Issue date: 23-Mar-2015
Customer Ref: 610.14997.00000:14353

Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Biosolids treatment facilities; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Car parks; Caravan parks; Cemeteries; Charter and tourism boating facilities; Commercial premises; Correctional centres; Crematoria; Educational establishments; Entertainment facilities; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Function centres; Health services facilities; Heavy industrial storage establishments; Helipads; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industries; Information and education facilities; Marinas; Mortuaries; Open cut mining; Passenger transport facilities; Port facilities; Recreation facilities (major); Registered clubs; Research stations; Residential accommodation; Restricted premises; Rural industries; Sewage treatment plants; Signage; Tourist and visitor accommodation; Transport depots; Truck depots; Water recycling facilities; Water supply systems; Wharf or boating facilities; Wholesale supplies.

NOTE: You are advised that in addition to the matters set out above, the instrument may make further provisions with respect to the purposes for which development may be carried out on the land without consent and with consent and the purposes for which development of the land is prohibited. Applicants are advised that they should read the whole of the instrument(s) in order to determine whether that instrument prohibits, restricts or otherwise relates to the development of the land.

(e) Development Standards applying to the land fixing minimum dimensions for the erection of a dwelling house?

No

(NB: the erection of a dwelling house on the land requires development consent to be obtained which will require assessment of the particular application under section 79C of the Act. The Council makes no representation that development consent will be granted to any application.)

(f) Critical Habitat

--

(g) Conservation Area

--

(h) Heritage Item

**PLANNING CERTIFICATE ISSUED UNDER SECTION 149(2)
ENVIRONMENT PLANNING AND ASSESSMENT ACT, 1979**

WILLOUGHBY
CITY COUNCIL

Certificate No: 33070
Receipt No: 1493702
Issue date: 23-Mar-2015
Customer Ref: 610.14997.00000:14353

3. COMPLYING DEVELOPMENT

NOTE: This certificate only addresses matters raised in Clauses 1.17A (1) (c) to (e), (2), (3) and (4), 1.18 (1) (c3) and 1.19 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008. It is your responsibility to ensure that the development is permissible with consent in the land use zone and that you comply with any other requirements of the State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 including Clauses 1.18 and 1.20 of that Policy, the Complying Development Codes in Parts 3 to 8 of that Policy, and the Willoughby Local Environmental Plan 2012. Failure to comply with these provisions may mean that a Complying Development Certificate issued under the provisions of the State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 is invalid.

(a) General Housing Code and Rural Housing Code

The land is land on which complying development may be carried out under these Codes.

(b) Housing Alterations Code and General Development Code

The land is land on which complying development may be carried out under these Codes.

(c) Commercial and Industrial Alterations Code

The land is land on which complying development may be carried out under this Code.

(d) Commercial and Industrial (New Buildings and Additions) Code

The land is land on which complying development may be carried out under this Code.

(e) Subdivisions Code

The land is land on which complying development may be carried out under this Code.

(f) Demolition Code

The land is land on which complying development may be carried out under this Code.

(g) Fire Safety Code

The land is land on which complying development may be carried out under this Code.

4. COASTAL PROTECTION

The land is not affected by Section 38 or 39 of the Coastal Protection Act 1979, (as advised by the Department of Public Works).

**PLANNING CERTIFICATE ISSUED UNDER SECTION 149(2)
ENVIRONMENT PLANNING AND ASSESSMENT ACT, 1979**

WILLOUGHBY
CITY COUNCIL

Certificate No: 33070
Receipt No: 1493702
Issue date: 23-Mar-2015
Customer Ref: 610.14997.00000:14353

4A CERTAIN INFORMATION RELATING TO BEACHES AND COASTS

- (1) --
- (2) --
- (3) --

4B ANNUAL CHARGES UNDER LOCAL GOVERNMENT ACT 1993 FOR COASTAL PROTECTION SERVICES THAT RELATE TO EXISTING COASTAL PROTECTION WORKS.

--

5. MINE SUBSIDENCE

The land is not within a proclaimed mine subsidence district under Section 15 of the Mine Subsidence Compensation Act, 1961.

6. ROAD WIDENING AND REALIGNMENT

The land is not affected by road widening or road realignment under:-

- 1) Division 2 of Part 3 of the Roads Act 1993; or
- 2) An Environmental Planning Instrument; or
- 3) A resolution of Council.

7. COUNCIL AND OTHER PUBLIC AUTHORITY POLICIES ON HAZARD RISK

The land is not affected by a policy adopted by any other public authority and notified to the Council for the express purpose of its adoption by that authority being referred to in planning certificates issued by the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

It is the Council's policy to consider previous land uses to determine whether land may be affected by contamination which restricts or prohibits the carrying out of development on the land. Depending on the previous uses of the land, the applicant may be required to investigate possible site contamination and/or carry out remediation as part of any proposed development and the development potential of the site may be restricted or prohibited. This is assessed by the Council on a case-by-case basis.

The Council will have regard to Clause 6.1 Acid Sulfate Soils of Willoughby Local Environmental Plan 2012 and the Acid Sulfate Soils Map in assessing any development applications relating to the land.

**PLANNING CERTIFICATE ISSUED UNDER SECTION 149(2)
ENVIRONMENT PLANNING AND ASSESSMENT ACT, 1979**

WILLOUGHBY
CITY COUNCIL

Certificate No: 33070
Receipt No: 1493702
Issue date: 23-Mar-2015
Customer Ref: 610.14997.00000:14353

7A FLOOD RELATED DEVELOPMENT CONTROLS INFORMATION

- (1) Development on that land or part of the land for the purposes of dwelling houses, dual occupancies, multi-dwelling housing or residential flat buildings (not including development for the purposes of group homes or seniors housing) is not subject to flood related development controls
- (2) Development on that land or part of the land for any other purpose is not subject to flood related development controls

NB. This response does not imply that development for particular purposes is permissible on the land. Development is permissible in accordance with the zoning and landuse as set out in Question 2. ZONING AND LANDUSE of this Certificate.

Based on the information currently available from Council's flood maps, this land is not affected by overland flooding. However, Council reviews flood studies on an on-going basis and new information may become available in future which may alter the flood affectation status of the subject parcel of land.

It is important to note that in some circumstances, a piece of land may experience inundation as a result of the creation of stormwater detention basins, channels or flow paths after the development of the land. The applicant is therefore advised to engage the services of a suitably qualified engineer to investigate whether remedial measures should be adopted to minimise the effects of any such inundation.

8. LAND RESERVED FOR ACQUISITION

The land is not affected by any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instruments which provides for the acquisition of the land by a public authority, as referred to in section 27 of the Act.

1. RELEVANT PLANNING INSTRUMENTS AND DEVELOPMENT CONTROL PLANS

(1) Environmental Planning Instruments

As at the date of this certificate the above mentioned land is affected by the following environmental planning instruments:

Willoughby Local Environmental Plan 2012

State Environmental Planning Policy No. 19 - Bushland in Urban Areas
State Environmental Planning Policy No. 21 - Caravan Parks
State Environmental Planning Policy No. 30 - Intensive Agriculture
State Environmental Planning Policy No. 32 - Urban Consolidation (Redevelopment of Urban Land)
State Environmental Planning Policy No. 33 - Hazardous and Offensive Development
State Environmental Planning Policy No. 50 - Canal Estate Development
State Environmental Planning Policy No. 55 - Remediation of Land
State Environmental Planning Policy No. 62 – Sustainable Aquaculture
State Environmental Planning Policy No. 64 - Advertising and Signage
State Environmental Planning Policy No. 65 - Design Quality of Residential Flat Development
State Environmental Planning Policy No. 70 - Affordable Housing (Revised Schemes)
State Environmental Planning Policy (Major Development) 2005
State Environmental Planning Policy (Infrastructure) 2007
State Environmental Planning Policy (Miscellaneous Consent Provisions) 2007
State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007
State Environmental Planning Policy (Exempt and Complying Development Codes) 2008
State Environmental Planning Policy (Affordable Rental Housing) 2009
State Environmental Planning Policy (State and Regional Development) 2011
State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004
Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005

(2) Proposed Environmental Planning Instruments

As at the date of this certificate the above mentioned land is affected by the following proposed environmental planning instruments:

Draft State Environmental Planning Policy No. 65 - Design Quality of Residential Flat Development (Amendment 3)

(3) Development Control Plans

As at the date of this certificate the above mentioned land is affected by the following development control plans:

Development Control Plan 2005 - Sydney Foreshore and Waterways Area

**PLANNING CERTIFICATE ISSUED UNDER SECTION 149(2)
ENVIRONMENT PLANNING AND ASSESSMENT ACT, 1979**

WILLOUGHBY
CITY COUNCIL

Certificate No: 33075
Receipt No: 1493734
Issue date: 23-Mar-2015
Customer Ref: 610.14997.00000:14355

The plan applies to all development proposals within the foreshores and waterways area identified in SREP (Sydney Harbour Catchment) 2005 - (Refer to the Foreshores and Waterways Area Map).

Willoughby Development Control Plan

2. ZONING AND LAND USE

(a) Zone Identity

IN2 Light Industrial

(b), (c), (d) (Development)

Zone IN2 Light Industrial – under Willoughby Local Environmental Plan 2012

Objectives of zone

- *To provide a wide range of light industrial, warehouse and related land uses*
- *To encourage employment opportunities and to support the viability of centres*
- *To minimise any adverse effect of industry on other land uses*
- *To enable other land uses that provide facilities or services to meet the day to day needs of workers in the area*
- *To support and protect industrial land for industrial uses*
- *To identify and preserve industrial land to meet the current and future light industrial needs of Willoughby and the wider region*
- *To accommodate industrial development that provides employment and a range of goods and services without adversely affecting the amenity, health or safety of residents in adjacent areas.*
- *To protect the viability of business zones in Willoughby by enabling development for the purposes of offices if they are used in conjunction with industrial, manufacturing, warehousing or other permitted uses on the same land*
- *To improve the environmental quality of Willoughby by ensuring that land uses conform to land, air and water quality pollution standards and environmental and hazard reduction guidelines*
- *To accommodate uses that, because of demonstrated special building or site requirements or operational characteristics, cannot be or are inappropriate to be located in other zones.*

Permitted without consent

Nil

Permitted with consent

Building identification signs; Business identification signs; Depots; Industrial training facilities; Light industries; Neighbourhood shops; Pubs; Roads; Take away food and drink premises; Timber yards; Vehicle sales or hire premises; Warehouse or distribution centres; Any other development not specified in item 2 or 4.

**PLANNING CERTIFICATE ISSUED UNDER SECTION 149(2)
ENVIRONMENT PLANNING AND ASSESSMENT ACT, 1979**

WILLOUGHBY
CITY COUNCIL

Certificate No: 33075
Receipt No: 1493734

Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Biosolids treatment facilities; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Car parks; Caravan parks; Cemeteries; Charter and tourism boating facilities; Commercial premises; Correctional centres; Crematoria; Educational establishments; Entertainment facilities; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Function centres; Health services facilities; Heavy industrial storage establishments; Helipads; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industries; Information and education facilities; Marinas; Mortuaries; Open cut mining; Passenger transport facilities; Port facilities; Recreation facilities (major); Registered clubs; Research stations; Residential accommodation; Restricted premises; Rural industries; Sewage treatment plants; Signage; Tourist and visitor accommodation; Transport depots; Truck depots; Water recycling facilities; Water supply systems; Wharf or boating facilities; Wholesale supplies.

NOTE: You are advised that in addition to the matters set out above, the instrument may make further provisions with respect to the purposes for which development may be carried out on the land without consent and with consent and the purposes for which development of the land is prohibited. Applicants are advised that they should read the whole of the instrument(s) in order to determine whether that instrument prohibits, restricts or otherwise relates to the development of the land.

(e) Development Standards applying to the land fixing minimum dimensions for the erection of a dwelling house?

No

(NB: the erection of a dwelling house on the land requires development consent to be obtained which will require assessment of the particular application under section 79C of the Act. The Council makes no representation that development consent will be granted to any application.)

3. COMPLYING DEVELOPMENT

NOTE: This certificate only addresses matters raised in Clauses 1.17A (1) (c) to (e), (2), (3) and (4), 1.18 (1) (c3) and 1.19 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008. It is your responsibility to ensure that the development is permissible with consent in the land use zone and that you comply with any other requirements of the State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 including Clauses 1.18 and 1.20 of that Policy, the Complying Development Codes in Parts 3 to 8 of that Policy, and the Willoughby Local Environmental Plan 2012. Failure to comply with these provisions may mean that a Complying Development Certificate issued under the provisions of the State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 is invalid.

(a) General Housing Code and Rural Housing Code

The land is land on which complying development may be carried out under these Codes.

(b) Housing Alterations Code and General Development Code

The land is land on which complying development may be carried out under these Codes.

(c) Commercial and Industrial Alterations Code

The land is land on which complying development may be carried out under this Code.

(d) Commercial and Industrial (New Buildings and Additions) Code

The land is land on which complying development may be carried out under this Code.

(e) Subdivisions Code

The land is land on which complying development may be carried out under this Code.

(f) Demolition Code

The land is land on which complying development may be carried out under this Code.

(g) Fire Safety Code

The land is land on which complying development may be carried out under this Code.

4. COASTAL PROTECTION

The land is not affected by Section 38 or 39 of the Coastal Protection Act 1979, (as advised by the Department of Public Works).

**PLANNING CERTIFICATE ISSUED UNDER SECTION 149(2)
ENVIRONMENT PLANNING AND ASSESSMENT ACT, 1979**

--

5. MINE SUBSIDENCE

The land is not within a proclaimed mine subsidence district under Section 15 of the Mine Subsidence Compensation Act, 1961.

6. ROAD WIDENING AND REALIGNMENT

The land is not affected by road widening or road realignment under:-

- 1) Division 2 of Part 3 of the Roads Act 1993; or
- 2) An Environmental Planning Instrument; or
- 3) A resolution of Council.

7. COUNCIL AND OTHER PUBLIC AUTHORITY POLICIES ON HAZARD RISK

The land is not affected by a policy adopted by any other public authority and notified to the Council for the express purpose of its adoption by that authority being referred to in planning certificates issued by the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

It is the Council's policy to consider previous land uses to determine whether land may be affected by contamination which restricts or prohibits the carrying out of development on the land. Depending on the previous uses of the land, the applicant may be required to investigate possible site contamination and/or carry out remediation as part of any proposed development and the development potential of the site may be restricted or prohibited. This is assessed by the Council on a case-by-case basis.

The Council will have regard to Clause 6.1 Acid Sulfate Soils of Willoughby Local Environmental Plan 2012 and the Acid Sulfate Soils Map in assessing any development applications relating to the land.

7A FLOOD RELATED DEVELOPMENT CONTROLS INFORMATION

- (1) Development on that land or part of the land for the purposes of dwelling houses, dual occupancies, multi-dwelling housing or residential flat buildings (not including development for the purposes of group homes or seniors housing) is subject to flood related development controls
- (2) Development on that land or part of the land for any other purpose is subject to flood related development controls

NB. This response does not imply that development for particular purposes is permissible on the land. Development is permissible in accordance with the zoning and landuse as set out in Question 2. ZONING AND LANDUSE of this Certificate

Council has adopted the 1% flood event as the standard for flood planning for both residential and non-residential uses. These standards can be found in the Willoughby Development Control Plan.

Council ascertains the 1% flood event by reference to the maps outlined in the Overland Flooding Investigation and relevant flood studies which are available for inspection at Council's offices during business hours and from Council's web site.

8. LAND RESERVED FOR ACQUISITION

The land is not affected by any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instruments which provides for the acquisition of the land by a public authority, as referred to in section 27 of the Act.

This is assessed by the Council on a case-by-case basis.

The Council will have regard to Clause 6.1 Acid Sulfate Soils of Willoughby Local Environmental Plan 2012 and the Acid Sulfate Soils Map in assessing any development applications relating to the land.

**PLANNING CERTIFICATE ISSUED UNDER SECTION 149(2)
ENVIRONMENT PLANNING AND ASSESSMENT ACT, 1979**

WILLOUGHBY
CITY COUNCIL

Certificate No: 33076
Receipt No: 1493735
Issue date: 23-Mar-2015
Customer Ref: 610.14997.00000:14356

7A FLOOD RELATED DEVELOPMENT CONTROLS INFORMATION

- (1) Development on that land or part of the land for the purposes of dwelling houses, dual occupancies, multi-dwelling housing or residential flat buildings (not including development for the purposes of group homes or seniors housing) is not subject to flood related development controls
- (2) Development on that land or part of the land for any other purpose is not subject to flood related development controls

NB. This response does not imply that development for particular purposes is permissible on the land. Development is permissible in accordance with the zoning and landuse as set out in Question 2. ZONING AND LANDUSE of this Certificate.

Based on the information currently available from Council's flood maps, this land is not affected by overland flooding. However, Council reviews flood studies on an on-going basis and new information may become available in future which may alter the flood affectation status of the subject parcel of land.

It is important to note that in some circumstances, a piece of land may experience inundation as a result of the creation of stormwater detention basins, channels or flow paths after the development of the land. The applicant is therefore advised to engage the services of a suitably qualified engineer to investigate whether remedial measures should be adopted to minimise the effects of any such inundation.

8. LAND RESERVED FOR ACQUISITION

The land is not affected by any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instruments which provides for the acquisition of the land by a public authority, as referred to in section 27 of the Act.

Dear Mr Cowper,

RE SITE: 31-33 Herbert St St Leonards NSW

I refer to your site search request received by WorkCover NSW on 29 July 2015 requesting information on licences to keep dangerous goods for the above site.

A search of the Stored Chemical Information Database (SCID) and the microfiche records held by WorkCover NSW has not located any records pertaining to the above mentioned premises.

If you have any further queries please contact the Dangerous Goods Licensing Team on (02) 4321 5500.

Yours Sincerely

Brent Jones
Senior Licensing Officer
Dangerous Goods Team
