

WARNING! The location of walls and detail points in relation to boundaries is approximate only!

NOTES

- COPYRIGHT This drawing and/or design is the property of Harrison Friedmann & Associates Pty Ltd and should not be reproduced in part or whole without the written permission of the company.
- Bearings and distances of boundaries and areas are from Land and Property Information records only. They are on Magnetic Meridian. If accurate True North is required a further survey would be necessary.
- NO BOUNDARY SURVEY HAS BEEN MADE. Relationship of improvements to boundaries is diagrammatic only. Boundary fences and retaining walls have not been accurately located and may not be shown on this plan. DO NOT SCALE OFF THIS PLAN. Where offsets from improvements, fences or walls to boundaries are critical for future building design and construction they MUST be confirmed by a further boundary survey. This survey has not investigated any subterranean structures.
- The services information shown on this plan have been determined from visual inspection only. It is passed on with the understanding that no excavation or works will be commenced without a current services search of all services being obtained from "Dial before you dig" (DBYD) (phone 1100 or fax 1300 652 077) or from any individual service provider. Note that not all services providers are members of DBYD.
- The location of Sydney Water's Sewer Main has been plotted approximately, based on visible maintenance holes and/or information from Sydney Water. This information can not be relied on. Any construction near Sydney Water Mains requires further investigation, a Service Protection Report (sewer pegout) and approval from Sydney Water.
- The locations of spot levels are diagrammatic only. They are accurate to $\pm 0.3\text{m}$ in relation to boundaries. Levels critical to design, excavation or construction must be verified. If contours are shown they depict the topography rather than represent the exact level at any particular point. Care should be taken if extrapolating levels or contours.
- The spread of the crown of the trees shown on this plan is diagrammatic only, based on the average spread observed in the field. Prior to any development proposal which might be affected by trees it is recommended that the tree spreads be verified by field inspection.
- Australian Height Datum was established from S.S.M. 133443 R.L. 10.961 located at the intersection of Vista & Nelson Street. Datum source obtained from S.C.I.M.S. 29/10/2015.

ALL ABOVE NOTES ARE AN INTEGRAL PART OF THIS PLAN
