Subject: Progressing PP2023-2772 to Gateway - No.3732 The Escort Way CUDAL

Department of Planning, Housing & Infrastructure – Jess Holland/ Jenna McNabb
Cabonne Council – Heather Nicholls / Todd Saxelby
cc. Peter & Bernadette Carman (Applicant)

DPHI & Cabonne,

I hope you are well. It came to my attention this week after meeting with Cabonne that PP2023-2772 was unable to progress to Gateway due to some issue with the Portal.

After discussions with DPHI today, it may be that a Rezoning Review (RR-2024-13) was initiated that has stalled the application. It says this was initiated by me, but I thought it was automatically generated so paid no heed to it.

However, hoping it assists – I will shortly withdraw the Rezoning Review and hope this allows Council to now send the PP to DPHI for Gateway Determination in accordance with the July Council meeting recommendations. This email will be uploaded as written confirmation of that withdrawal.

If this does not solve the issue – then I kindly ask DPHI/Council to progress discussions with the DPHI Portal Contact so it can be resolved asap.

Also, due to the disagreement on the nature of the additional studies that Council has requested (I have been discussing this with Tim Collins) – I would greatly appreciate if the relevant DPHI officer can give me a call to discuss as soon as they have conducted their preliminary review and prior to Gateway.

Thanks & Regards

Andrew Napier
