Support for Woolworths Proposal [Ramsgate Village] – Impact on Local Healthcare Services

Dear General Manager and Councillors,

On behalf of Allround Denture Clinic, I am writing to voice our strong support for the proposed Woolworths Ramsgate Village development.

As a trusted dental care provider serving local communities for over 40 years, we believe this proposed development has the potential to bring significant benefits not only to the commercial landscape but also to health-based businesses such as ours. Increased foot traffic, improved public access, and revitalisation of the area would help create a more vibrant and connected community, ultimately supporting small, service-oriented practices.

The presence of a Woolworths store and associated retail development will naturally attract more people to the precinct, raising the profile of surrounding businesses and encouraging local residents to stay within the area for their everyday needs, including healthcare. For Allround Denture Clinic, this means greater visibility, easier access for patients, and a stronger platform from which to provide ongoing oral health support to the Ramsgate community.

Furthermore, the development aligns with the broader goal of building a modern, accessible, and sustainable local hub - an environment where businesses of all sizes can thrive and residents can benefit from a wider range of services close to home.

We respectfully urge the Council to consider the positive economic and social impact this project will bring to Ramsgate, particularly for small, community-focused health practices like ours.

Thank you for your attention and leadership on this important matter.

Kind regards,

Daniel Parmagos
