EXECUTIVE SUMMARY

A preliminary contamination assessment (PCA) was carried out for the site currently registered as Part Lot 6 in DP1204186, located at 10 Victoria Street, Berry and covering an area of approximately 8,000 square metres (m²).

The objectives of the assessment are to identify any areas of potential contamination and to assess if the site is likely to present a risk of harm to human health and the environment under the conditions of the proposed extension of the existing retirement village.

In order to achieve the objectives, a site reconnaissance and review of site historical and geological information were carried out.

Based on this assessment, it is our opinion that sampling and testing are required to address the potential contaminants listed in Section 7.0 of the report. If any contaminants are identified the site can be made suitable for the proposed use following successful remediation followed by validation.

It is considered reasonable for conditional development consent to be issued to require the sampling and testing. Based on the results of the testing to determine the need or otherwise for remediation. It is considered that based on this approach Council can be satisfied that the site can be made suitable for the proposed use subject to the imposition of appropriate conditions of consent.

Reference should be made to Section 9.0 of the report for the limitations of this assessment.

Part of Lot 6 in 1204186 – 10 Victoria Street, Berry

1.0 INTRODUCTION

This report presents the results of a preliminary contamination assessment (PCA) for the site currently registered as Lot 6 in DP1204186, located at 10 Victoria Street, Berry, in the local government area of City of Shoalhaven indicated on Figure 1 below.

FIGURE 1

Map Data ©2019 Google

The objectives of the assessment are to identify any areas of potential contamination and to assess if the site is likely to present a risk of harm to human health and the environment under the conditions of the proposed extension of the existing retirement village.

This report was prepared generally in accordance with the NSW Environment Protection Authority (EPA), "Guidelines for Consultants Reporting on Contaminated Sites" (NSW OEH 2011), and to satisfy Managing Land Contamination: Planning Guidelines, State Environmental Planning Policy No. 55 – Remediation of Land (NSW EPA/DUAP 1998).

14397/1-AA

Part of Lot 6 in 1204186 – 10 Victoria Street, Berry

2.0 SCOPE OF WORK

In order to achieve the objectives of this assessment, the following scope of work was conducted in accordance with our fee proposal (Our Ref: Q-Berry (Arbour Berry Village)) dated 14 December 2018:

- A desktop study of;
 - Review of the previous report associated with the site
 - NSW Land Registry Services records
 - Historical aerial photographs
 - Section 10.7 planning certificates and Council records
 - NSW EPA Record of Notices for Contaminated Lands and Search for licences, applications and notices under the Protection of Environment Operations (POEO) register
 - Soil and geological maps
 - Groundwater bore records of Department of Primary Industries, Office of Water
- An inspection to observe present site conditions and any areas of environmental concern based on visual and olfactory indicators of potential contamination.

3.0 SITE IDENTIFICATION

The site is located at 10 Victoria Street, Berry, in the local government area of the City of Shoalhaven and is part of land registered as Lot 6 in DP1204186.

As shown on Drawing No 14397/1-AA1, the site is irregular in shape, measuring about 93 metres (m) along the Victoria Street frontage, covering an area of 8,000 square metres (m²).

Reference may be made to the cadastral and deposited plans in Appendix A for details of the location and dimensions of Lot 6.

4.0 SITE HISTORY

In order to formulate a picture of the site history and to assist in identification of any potential contamination, Geotechnique Pty Ltd (Geotechnique) reviewed available information, NSW Land Registry Services records, historical aerial photographs, Planning Certificate under Section 10.7 of the Environmental Planning and Assessment Act 1979, Council records, NSW EPA record of Notices for Contaminated Land and records of the POEO Public Register.

The information review is presented in the following sub-sections.

4.1 Aerial Photographs

Aerial photographs taken in 1961, 1970, 1984 2002 and 2018 were examined. Copies of the aerial photographs are presented in Appendix B.

The writer made the following observations. Due to scale, some of the listed observations are best interpretations only.

All the aerial photographs indicate that Victoria Street borders the site to north.

14397/1-AA

Part of Lot 6 in 1204186 – 10 Victoria Street, Berry

1961, 1970 and 1984	The site appears to be part of larger rural land with distant residential adjoining properties to the east and south of the site.
2002	The site appears to remain essentially unchanged since 1984, with the residential development to the east of the site.
2018	The site appears to remain essentially unchanged since 2002, with additional residential buildings to the east and south of the site.

4.2 NSW Land Registry Services Records

Review of the previous report by Geotechnique, indicated the site was part of the previous Lot 1 in DP1072922. The current Lot 6 in DP 1204186 is part of the previous Lot 1 in DP1072922 was owned by various private and farmer accountant and solicitors between 1907 and 2002/2004.

The site is part of Lot 6 in DP1204186 and is currently owned by Berry Village Retirement Village Pty Ltd.

4.3 Section 10.7 Planning Certificates and Council Records

Planning Certificates No 2018/04874 under Section 10.7 of the Environmental Planning and Assessment Act 1979, for Lot 6 in DP1204186, issued on 19 December 2018 by Shoalhaven City Council, indicated the following:

- The site is zoned RU1 Primary Production
- The site does not include or comprise critical habitat
- The site is not in a conservation area
- An item of environmental heritage is not situated on the site
- The site is not affected by any of the matters prescribed by Section 59(2) of the Contaminated Land Management Act 1997

Publicly available records of Shoalhaven City Council focus primarily on Development Applications (DA), Building Applications (BA) and application approvals. This information can sometimes include complaints or comments from neighbouring persons or companies, which might be relevant to the contamination status of the site.

A summary of the available records of The Shoalhaven City Council is listed below:

- 21 June 2004, Council approved a proposal (permit number SF9541) for Maurice & Jane Bruce for a two (2) lot rural subdivision at 46 Clarence Street, Berry.
- 27 October 2006 Council approved a proposal (permit number SF9886) for Urban Futures Group for a two (2) lot residential subdivision at 10 Victoria Street, Berry.
- 28 September 2007 Council approved DA (permit number 07/2413) for Berry Village Retirement Pty Ltd for installation of 7.5 kL Petroleum Gas Tank to allow for reticulated gas supply to be available to the Arbour residence at 10 Victoria Street, Berry.
- 4 February 2008 Council approved DA (permit number 07/2867) for Amity Group Pty Ltd for construction of 210 bed aged-care facility at Victoria Street, Berry.

14397/1-AA

Part of Lot 6 in 1204186 – 10 Victoria Street, Berry

- 24 June 2008 Council approved SC (permit number 08/1031) for Berry Village Retirement Pty Ltd for a two (2) lot subdivision dividing the aged care facility from the nursing home accommodation at 10 Victoria Street, Berry.
- 21 April 2009 Council approved DS (permit number 09/1106) for Commercial Building Group Pty Ltd for modification to previous DA (permit number 07/2867) at 10 Victoria Street, Berry.

Reference may be made to Appendix C for the Section 10.7 (2) Certificate and council records respectively.

4.4 NSW EPA Record of Notices and Environment Protection Licences

The NSW OEH maintains the record of EPA notices for contaminated lands under Section 58 of the Contaminated Land Management (CLM) Act 1997. The notices relate to investigation and/or remediation of site contamination considered to pose a significant risk of harm under the definition in the CLM Act. A search of the EPA notices on 5 February 2019 revealed no notices issued for the site. It should be noted that the NSW EPA record for Contaminated Land does not provide a record of all contaminated lands in NSW. At the time of searching the records, 372 sites in NSW were registered in the database.

The EPA issues environment protection licences to owners or operators of various industrial premises under the Protection of the Environment Operations (POEO) Act to control the air, noise, water and waste impacts of an activity. A search of the POEO Public Register on 5 February 2019 found no records for the site.

NSW EPA and the POEO Public Register records are detailed in Appendix D of this report.

4.5 Review of the PCA Report Associated with the Site

Geotechnique prepared a PCA report in 2006 (Report No 11003/1-AA) for the previous Lot 1 in DP1073922. The current site is part of Lot 6 in DP1204186, which in turn was part of Lot 1 in DP1073922.

The results were presented in the previously mentioned Report 11003/1-AA, dated 15 March 2006. This section presents a summary of the scope of work involved in the PCA associated with the site and the subsequent findings and recommendations.

The objectives of the assessment were to ascertain whether the site potentially presents a risk of harm to human health and the environment and to determine the suitability of the site for the proposed retirement village development.

In order to achieve the objective of the assessment the scope of work included; desktop study of the site history information and a site inspection.

The review included historical aerial photographs, certificates of land titles (past and present), Planning Certificate issued by Council under Section 149 (currently Section 10.7) of the Environmental Planning and Assessment Act 1979, council records, NSW WorkCover/Safe Work NSW record and NSW EPA notices for contaminated land.

14397/1-AA

Part of Lot 6 in 1204186 – 10 Victoria Street, Berry

Based on the review of desktop study of historical information, it was reported that:

- Aerial photographs and the land title records indicate that the site was mainly used for open grazing land with number of creek and dam present.
- Council records indicated that the record did not suggest that the land was used for anything other than cattle grazing.
- A search was carried out by WorkCover (currently known as Safe Work NSW) and there were no records on dangerous goods and underground tank pertaining to the site.

Based on the PCA for Lot 1 DP1073922, it was considered that there was only a low potential for localised, soil contamination within the site, associated with the soil stockpiles and soil filling materials. Given the low potential contamination associated with the soil stockpiles and filling materials in the southern portion of the site, it was recommended for the implementation of a suitable sampling and testing plan to confirm the presence or otherwise of contaminants within these soils.

5.0 SITE CONDITION AND SURROUNDING ENVIRONMENT

5.1 Site Condition

An Environmental Scientist from Geotechnique made the following observations during a site inspection for this PCA on 8 January 2019:

- Garden bed and possible fill near the in north western boundary of the site
- Disturbed area(possible fill) in the southern portion of the site
- Drainage outfall with oily water surface

The remainder of the site was covered with grass and/or scattered trees.

There were no air emissions emanating from the site or neighbouring properties.

5.2 Surrounding Environment

At the time of undertaking the inspection, observations of the neighbouring properties were as follows:

To the north	Victoria Street
To the west	Pepper Farm Drive
To the south	Vacant land/Residential
To the east	Residential

The site features, as well as the layout of the site and surrounding properties are indicated on Drawing No 14397/1-AA1.

6.0 TOPOGRAPHY, GEOLOGY & HYDROGEOLOGY

Review of the previous report (Report No 11003/1-AA) prepared by Geotechnique, indicated that residual soil in the north portion of Lot1 in DP1073922 (i.e. near the current site), to be underlain by Permian Age soil consisting of siltstone, shale and sandstone and the residual soil in the southern portion to be underlain by Quaternary Age soil comprising alluvium, gravel, swamp deposits and sand.

A creek is located at about 90m to the south of the site.

14397/1-AA

Part of Lot 6 in 1204186 – 10 Victoria Street, Berry

A site-specific groundwater analysis is outside the scope of this assessment. However, a search was carried out on 5 February 2019 through the website of Department of Primary Industries Office of Water for any registered groundwater bore data within a radius of 500m of the site. There was no detail information available; however based on the information available on two bore holes, the standing water levels observed recorded as 2.1m and 3m below the existing ground level. The groundwater map and available groundwater bore information is included in Appendix E of this report.

7.0 CONCEPTUAL SITE MODEL / POTENTIAL AREAS OF ENVIRONMENTAL CONCERN

Based on the preceding sections, potential Areas of Environmental Concern (AEC) and associated contaminants have been identified and are presented in the following.

Potential AEC	Rational / Details	Potential Contaminants
Potential fill in the north and south eastern portion of the site and potential	➤ Potential for filling to have taken place. ➤ Fill materials could have been imported from unknown sources, therefore, there is potential for the fill materials to be contaminated.	➤ Heavy Metals ➤ Total recoverable Hydrocarbon (TRH), Benzene, Toluene, Ethylbenzene and Xylene (BTEX) ➤ Polycyclic Aromatic Hydrocarbon (PAH) ➤ Organochlorine Pesticides (OCP) ➤ Polychlorinated Biphenyls (PCB) ➤ Phenols ➤ Asbestos

Off-site impacts of contaminants in soil are generally governed by the transport media available and likely receptor(s). The most common transport medium is water and wind, whilst receptors include initially uncontaminated soils, groundwater, surface water bodies, humans, flora and fauna.

Migration of soil contaminants to the deeper soils and/or groundwater regime would generally be via leaching from the surface soil or fill, facilitated by infiltration of surface water. Given that the natural sub-surface soil is relatively impermeable (refer to Section 6.0 for the regional geology information), the potential for any contaminants migrating from the contaminated soil to the groundwater table below is considered low. Furthermore, the relatively impermeable clay layer would have minimised the potential for any contaminants migrating to deeper soils.

A pond is located to the south in the vicinity of the site and a creek is located at about 90m to the south of the site. Part of the surface runoff will partly eventuate to the pond and the creek. However, the potential for contamination of surface water bodies as a result of any contaminants within the site is considered to be low.

Any potential off-site impacts of any contaminants on groundwater and surface water bodies will be addressed upon completion of the proposed sampling and testing plan (if required).

14397/1-AA

Part of Lot 6 in 1204186 – 10 Victoria Street, Berry

8.0 CONCLUSION AND RECOMMENDATIONS

Based on this assessment, it is our opinion that sampling and testing are required to address the potential contaminants listed in Section 7.0 of the report and confirm the contamination status of the site. If any contaminants are identified the site can be made suitable for the proposed land use following successful remediation and validation.

It is considered reasonable for conditional development consent to be issued to require the sampling and testing. Based on the results of the testing to determine the need or otherwise for remediation. It is considered that based on this approach Council can be satisfied that the site can be made suitable for the proposed use subject to the imposition of appropriate conditions of consent.

For any materials to be excavated and removed from the site, it is recommended that waste classification of the materials, in accordance with the "Waste Classification Guidelines Part 1: Classifying Waste" NSW EPA 2014; NSW EPA resource recovery exemptions and orders under the Protection of the Environment Operations (Waste) Regulation 2014, or NSW EPA Certification: Virgin excavated natural material is undertaken prior to disposal at a facility that can lawfully accept the materials.

Any imported soil (fill) must be assessed by a qualified environmental consultant, prior to importation, to ensure suitability for the proposed use. In addition, the imported fill must not contain asbestos and ash, be free of unusual odour, not be discoloured and not acid sulphate soil or potential acid sulphate soil. The imported fill should either be virgin excavated natural material (VENM) or excavated natural material (ENM).

9.0 LIMITATIONS

Within the scope of work outlined in our proposal emailed on 4 December 2018, the services performed by Geotechnique in preparing this report were conducted in a manner consistent with the level of quality and skill generally exercised by members of the profession and consulting practice.

To the best of our knowledge, all information obtained and contained in this report is true and accurate. No further investigation has been carried out to authenticate the information provided. Supporting documentation was obtained where possible, some of which is contained in this report.

This report has been prepared for the purpose stated within based on the agreed scope of work. Relevant council may rely on the report in making development application determination. Any reliance on this report by other parties shall be at such parties' sole risk, as the report might not contain sufficient information for other purposes.

This report shall only be presented in full and may not be used to support any other objective than those set out in the report, except where written approval is provided by Geotechnique.

The information in this report is considered accurate at the completion of field inspection on 8 January 2019. Any variations to the site form or use beyond that date will nullify the conclusion and recommendations stated.

Presented in Appendix F is a document entitled "Environmental Notes", which should be read in conjunction with this report.

Applicants reference: 14399/1

Property:
Lot 6 DP 1204186, 10 Victoria St, BERRY
Parish of COOLANGATTA, County of CAMDEN

The above information is as recorded by Council.

DISCLAIMER AND CAUTION:

1. The information on zones, controls etc given below relates to the land for which the certificate was sought. If enquirers wish to know what zones, other controls, etc apply or are proposed on nearby land then they should make enquiries in person at Council's offices.
2. The information contained in this certificate is accurate as at the date of this certificate.
3. In providing this certificate Council has in good faith relied upon information provided to it or sourced from third parties. Where Council has obtained the information from third parties, either exclusively or in conjunction with information held by Council, the Certificate details the source of that third party information. Council cautions persons against relying upon information in the Certificate sourced from third parties as to its accuracy, applicability to specific lands and its currency without verification from the specified third party and, where appropriate, professional advice and the adoption of prudent land acquisition measures and appropriate professional advice. To the full extent permitted by law Council disclaims liability with respect to any information in this Certificate sourced from third parties.

The information contained in this certificate is prepared in accordance with the Environmental Planning and Assessment Act 1979 (as amended) and the Environmental Planning Assessment Regulation 2000 (as amended).

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

This is a Planning Certificate issued by Shoalhaven City Council under Section 10.7(2) of the Environmental Planning and Assessment Act 1979 on the application of the person described above in respect of the land described above.

1 Names of relevant planning instruments and DCP's

- (1) The name of each environmental planning instrument that applies to the carrying out of development on the land:

Shoalhaven Local Environmental Plan 2014 (as amended)

State Environmental Planning Policies affecting the City

State Environmental Planning Policy No. 21 – Caravan Parks
State Environmental Planning Policy No. 30 – Intensive Agriculture
State Environmental Planning Policy No. 33 – Hazardous and Offensive Development
State Environmental Planning Policy No. 36 – Manufactured Home Estates
State Environmental Planning Policy No. 44 – Koala Habitat Protection
State Environmental Planning Policy No. 50 – Canal Estate Development
State Environmental Planning Policy No. 55 – Remediation of Land
State Environmental Planning Policy No. 62 – Sustainable Aquaculture
State Environmental Planning Policy No. 64 - Advertising and Signage
State Environmental Planning Policy No. 65 – Design Quality of Residential Apartment Development
State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004
State Environmental Planning Policy (Building Sustainability Index: Basix) 2004
State Environmental Planning Policy (State Significant Precincts) 2005
State Environmental Planning Policy (Infrastructure) 2007
State Environmental Planning Policy (Mining Petroleum Production and Extractive Industries) 2007
State Environmental Planning Policy (Miscellaneous Consent Provisions) 2007
State Environmental Planning Policy (Rural Lands) 2008
State Environmental Planning Policy (Exempt and Complying Development Codes) 2008
State Environmental Planning Policy (Affordable Rental Housing) 2009
State Environmental Planning Policy (State and Regional Development) 2011
State Environmental Planning Policy (Educational Establishments and Child Care Facilities) 2017
State Environmental Planning Policy (Vegetation in Non-Rural Areas) 2017
State Environmental Planning Policy (Coastal Management) 2018

- (2) The name of each proposed environmental planning instrument that will apply to the carrying out of development on the land and that is or has been the subject of community consultation or on public exhibition under the Act (not including any proposed instrument where the Secretary has notified the Council that the making of the proposed instrument has been deferred indefinitely or has not been approved) is:

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

Draft State Environmental Planning Policies

State Environmental Planning Policy No. 44 - Koala Habitat Protection - Review

Draft State Environmental Planning Policy (Environment) 2017

Draft State Environmental Planning Policy (Remediation of Land)

Draft State Environmental Planning Policy (Primary Production and Rural Development).

Explanation of Intended Effect - State Environmental Planning Policies

Explanation of Intended Effect - Proposed Housekeeping Amendment to State Environmental Planning Policy (Exempt and Complying Development Codes) 2008.

Explanation of Intended Effect - Short-term Rental Accommodation Planning Framework. Includes proposed amendments to State Environmental Planning Policy (Exempt and Complying Development Codes) 2008.

Draft Local Environmental Plans and planning proposals for Local Environmental Plans

PLANNING PROPOSAL PP012 TO AMEND SHOALHAVEN LOCAL ENVIRONMENTAL PLAN 2014 REVIEW OF FLOOD CONTROLS 2018 - ON EXHIBITION 23 MAY 2018 to 22 JUNE 2018 (50922E) (MIN17.380)

The Planning Proposal (PP) intends to remove Flood Area Mapping from Shoalhaven LEP (LEP) 2014 Planning for flexibility in providing the most up to date flood information, update Clause 7.3 in Shoalhaven LEP 2014 to provide consistency with NSW Floodplain Development Manual, identify historic flooding information and provide controls for previously mapped areas in Shoalhaven LEP 1985 that fall outside the currently adopted flood study areas, and incorporate provisions for stock mounds in flood prone areas and acid sulfate soil areas.

- (3) The name of each development control plan that applies to the carrying out of development on the land is:

Shoalhaven Development Control Plan 2014 (as amended)

(Note: a copy of Shoalhaven Development Control Plan 2014 is available on the internet at www.dcp2014.shoalhaven.nsw.gov.au or can be inspected at Council's Nowra office during normal business hours.)

2 Zoning and land use under relevant LEPs

For Shoalhaven Local Environmental Plan 2014 (as amended)

- a. **The identity of the zone in which the land is included under Shoalhaven Local Environmental Plan 2014:**

Zone RU1 Primary Production

- b. **The purposes for which Shoalhaven Local Environmental Plan 2014 provides that development may be carried out within the zone without the need for development consent:**

Extensive agriculture; Forestry; Home occupations.

- c. **The purposes for which Shoalhaven Local Environmental Plan 2014 provides that development may not be carried out within the zone except with development consent:**

Agriculture; Air transport facilities; Airstrips; Animal boarding or training establishments; Boat building and repair facilities; Boat sheds; Building identification signs; Business identification signs; Camping grounds; Cellar door premises; Cemeteries; Charter and tourism boating facilities; Community facilities; Crematoria; Depots; Dual occupancies (attached); Dwelling houses; Eco-tourist facilities; Educational establishments; Environmental facilities; Environmental protection works; Extractive industries; Farm buildings; Flood mitigation works; Food and drink premises; Group homes; Helipads; Home-based child care; Home businesses; Home industries; Information and education facilities; Intensive livestock agriculture; Intensive plant agriculture; Marinas; Markets; Mooring pens; Moorings; Offensive industries; Open cut mining; Places of public worship; Plant nurseries; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Roads; Roadside stalls; Rural industries; Rural workers' dwellings; Tourist and visitor accommodation; Veterinary hospitals; Water recreation structures; Water supply systems.

- d. **The purposes for which Shoalhaven Local Environmental Plan 2014 provides that development is prohibited within the zone:**

Hotel or motel accommodation; Pubs; Serviced apartments; Any other development not specified in item b or c.

- e. Development standards applying to the land **DO** fix minimum land dimensions for the erection of a dwelling-house on the land and the minimum land dimensions so fixed are:

SHOALHAVEN LOCAL ENVIRONMENTAL PLAN 2014 applies a development standard fixing the minimum lot size for the erection of a dual occupancy (attached) and dwelling-house on this lot. Refer to clause 4.2D of the Instrument. The minimum lot size fixed is: **40 Ha**

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

- f. The land **DOES NOT** include or comprise critical habitat under Shoalhaven Local Environmental Plan 2014.
(Note: Shoalhaven Local Environmental Plan 2014 does not identify areas of "critical habitat" as defined in Part 7A of the Fisheries Management Act 1994 (subject to section 5AA of the Environmental Planning and Assessment Act 1979). Enquiries about whether the land is "critical habitat" Part 7A of the Fisheries Management Act 1994 should be directed to the NSW Office of Environment and Heritage).
- g. The land **IS NOT** in a conservation area (however described) under Shoalhaven Local Environmental Plan 2014.
(Note: this item relates to "heritage conservation areas" as defined in the LEP).
- h. An item of environmental heritage (however described) under Shoalhaven Local Environmental Plan 2014 **IS NOT** situated on the land.
(Note: "environmental heritage" relates to matters/items of cultural heritage, for example, items listed on the State Register, items specifically listed in the LEP or matters subject to an "interim heritage order" under the Heritage Act 1977).

Other provisions under Shoalhaven Local Environmental Plan 2014 may also apply to the development of this land. You can view the Shoalhaven Local Environmental Plan 2014 at the website www.legislation.nsw.gov.au or at Council's offices.

2A Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

- (a) The land **IS NOT** within any zone (however described) under Part 3 of the State Environmental Planning Policy (Sydney Region Growth Centres) 2006 (the 2006 SEPP), or
- (b) The land **IS NOT** within any Precinct Plan (within the meaning of the 2006 SEPP), or
- (c) The land **IS NOT** within a proposed Precinct Plan that is or has been the subject of community consultation or on public exhibition under the Act.

3 Complying development

Qualifying Statement on Council Data Affecting this Item

Shoalhaven City Council does not have sufficient information to ascertain the extent to which complying development may or may not be carried out on the land, however specific land restrictions may not apply to all of the land. The information included in this Planning Certificate is provided in accordance with the Environmental Planning & Assessment Regulation 2000 (as amended). It is strongly suggested that you review the State Environmental Planning Policy (Exempt and Complying Developments Codes) 2008 and supporting information before proceeding with the lodgement of a Complying Development Certificate application to either Council or a private certifier. The NSW Department of Planning and Environment has provided a series of information sheets on its website

<http://www.planning.nsw.gov.au/exemptandcomplying>

Note: There are other provisions in State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 that must be complied with in order for development on the land to be complying development. Refer to State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 to identify if a Code applies to your land.

Specific land exemptions for Housing Code, Rural Housing and Greenfield Housing Code

The extent to which the land is land on which complying development may be carried out under each of the codes for complying development of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 **IS NOT RESTRICTED** by any of the provisions of clauses 1.17A (1)(c) to (e), (2), (3) and (4), 1.18(1) (c3) and 1.19 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 but the restriction may not apply to all of the land, and Council does not have sufficient information to ascertain the extent to which complying development may or may not be carried out on the land.

Specific land exemptions for Housing Alterations Code and General Development Code

The extent to which the land is land on which complying development may be carried out under the codes of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 **IS NOT RESTRICTED** by the following provisions of clauses 1.17A (1)(c) to (e), (2), (3) and (4), 1.18(1) (c3) and 1.19 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 but the restriction may not apply to all of the land, and Council does not have sufficient information to ascertain the extent to which complying development may or may not be carried out on the land.

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

**Specific land exemptions for Commercial and Industrial (New Buildings and Additions)
Code**

The extent to which the land is land on which complying development may be carried out under the codes of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 **IS NOT RESTRICTED** by the following provisions of clauses 1.17A (1)(c) to (e), (2), (3) and (4), 1.18(1) (c3) and 1.19 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 but the restriction may not apply to all of the land, and Council does not have sufficient information to ascertain the extent to which complying development may or may not be carried out on the land.

4B Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

The owner (or any previous owner) of the land **HAS NOT** consented in writing to the land being subject to annual charges under section 496B of the Local Government Act 1993 for coastal protection services that relate to existing coastal protection works (within the meaning of section 553B of that Act).

5 Mine subsidence

The land **HAS NOT** been proclaimed to be a mine subsidence district within the meaning of section 15 of the Mine Subsidence Compensation Act, 1961.

6 Road widening and road alignment

- (a) The land **IS NOT** affected by any road widening or road realignment under Division 2 of Part 3 of the Roads Act 1993
- (b) If the land is affected by any road widening or road realignment under any environmental planning instrument it will be listed below.
- (c) The land **IS NOT** affected by any road widening or road realignment under any resolution of Council.

Note: Information in item 6, relates to Council's road proposals; other authorities e.g. NSW Roads and Maritime Services, may have proposals not set out herein.

7 Council and other public authority policies on hazard risk restrictions

(a) The land **IS** affected by the following policy or policies adopted by the Council that restrict the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulfate soils or any other risk (other than flooding).

Shoalhaven Development Control Plan 2014

Contaminated Land Policy 2013

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

Shoalhaven Coastal Zone Management Plan 2018

(b) The land **IS NOT** affected by a policy adopted by a public authority (other than the Council) and notified to the Council for the express purpose of its adoption by that authority being referred to in planning certificates issued by the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulfate soils or any other risk (other than flooding).

7A Flood related development controls information

(1) Development on the land subject of this planning certificate for the purposes of dwelling houses, dual occupancies, multi dwelling housing or residential flat buildings (provided that such development is permissible on the land with or without development consent) is subject to flood related development controls.

(2) Development on the land subject of this planning certificate for purposes other than dwelling houses, dual occupancies, multi dwelling housing or residential flat buildings (provided that such development is permissible on the land with or without development consent) is subject to flood related development controls.

(3) The expressions "dwelling houses", "dual occupancies", "multi dwelling housing" and "residential flat buildings" as used in subclauses (1) and (2) above have the same meanings as in the standard instrument set out in the Standard Instrument (Local Environmental Plans) Order 2006

Council's records suggest that all or part of the land is within the *Probable Maximum Flood* (PMF) extent (as defined in Shoalhaven Development Control Plan 2014) and in the *Flood Planning Area* (FPA) extent and/or below the *Flood Planning Level* (FPL) (as defined in Shoalhaven Local Environmental Plan 2014).

The PMF and FPL trigger the following flood related development controls that apply to the land:

- Shoalhaven Development Control Plan 2014 - Chapter G9: Development on Flood Prone Land, Chapter G10: Caravan Parks in Flood Prone Areas and relevant Area Specific Chapters; and
- Shoalhaven Local Environmental Plan 2014 - Clause 7.3

For further information or to request a flood certificate, please contact Council's Natural Resources Unit.

8 Land reserved for acquisition

The land **IS NOT** reserved for acquisition by a public authority, as referred to in section 27 of the Act under any environmental planning instrument, or proposed environmental planning instrument referred to in clause 1.

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

9 Contributions plans

The name of the contributions plan applying to the land is:

Shoalhaven Contributions Plan 2010 (as amended)

9a Biodiversity certified land

The land **IS NOT** biodiversity certified land under Part 8 of the Biodiversity Conservation Act 2016.

Note: Biodiversity certified land includes land certified under Part 7AA of the Threatened Species Conservation Act 1995 that is taken to be certified under Part 8 of the Biodiversity Conservation Act 2016.

10 Biobanking stewardship sites

The council **HAS NOT** been notified by the Chief Executive of the Office of Environment and Heritage whether or not the land is a biodiversity stewardship site under a biodiversity stewardship agreement under Part 5 of the Biodiversity Conservation Act 2016.

Note: Biodiversity stewardship agreements include biobanking agreements under Part 7A of the Threatened Species Conservation Act 1995 that are taken to be biodiversity stewardship agreements under Part 5 of the Biodiversity Conservation Act 2016.

10a Native vegetation clearing set asides

The land **DOES NOT** contain a set aside area under section 60ZC of the Local Land Services Act 2013.

11 Bush fire prone land

The land **IS NOT** bushfire prone (as defined in the Environmental Planning and Assessment Act 1979).

12 Property vegetation plans

The Council **HAS NOT** been notified that the land is land to which a property vegetation plan approved under Part 4 of the Native Vegetation Act 2003 (and that continues in force) applies.

13 Orders under Trees (Disputes Between Neighbours) Act 2006

The Council **HAS NOT** been notified that an order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land.

14 Directions under Part 3A

There is no direction by the Minister in force under section 75P (2) (c1) of the Act that a provision of an environmental planning instrument prohibiting or restricting the carrying out of a project or a stage of a project on the land under Part 4 of the Act does not have effect.

15 Site compatibility certificates and conditions for seniors housing

The Council **IS NOT** aware of any current site compatibility certificate (seniors housing) in respect of proposed development on the land.

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

- 16 **Site compatibility certificates for infrastructure, schools or TAFE establishments**
The Council **IS NOT** aware of a current site compatibility certificate (Infrastructure) or site compatibility certificate (schools or TAFE establishments), in respect of proposed development on the land.
- 17 **Site compatibility certificates and conditions for affordable rental housing**
The Council **IS NOT** aware of a current site compatibility certificate (affordable rental housing), in respect of proposed development on the land.
- 18 **Paper subdivision information**
The land **IS NOT** affected by a development plan (proposed or adopted) or subdivision order as defined under Part 16C of the Environmental Planning & Assessment Regulation 2000
- 19 **Site verification certificates**
The Council **IS NOT** aware of a current site verification certificate (mining, petroleum production and extractive industries), in respect of this land.
- 20 **Loose-filled asbestos insulation**
The land **DOES NOT** include any residential premises (within the meaning of Division 1A of Part 8 of the Home Building Act 1989) that are listed on the register that is required to be maintained under that Division.
- 21 **Affected building notices and building product rectification orders**
- (1) The Council **IS NOT** aware of any affected building notice as defined under the Building Products (Safety) Act 2017 that is in force in respect of the land.
- (2)(a) The Council **IS NOT** aware of any building product rectification order as defined under the Building Products (Safety) Act 2017 that is in force in respect of the land and has not been fully complied with, and
- (2)(b) The Council **IS NOT** aware of any notice of intention to make a building product rectification order as defined under the Building Products (Safety) Act 2017 given in respect of the land and is outstanding.
- Note: Contaminated Land Management Act 1997:** The following matters are prescribed by Section 59(2) of the Contaminated Land Management Act 1997 as additional matters to be specified in a planning certificate:
- (a) The Council **HAS NOT** been informed by the Environment Protection Authority that the land is significantly contaminated land within the meaning of the Contaminated Land Management Act 1997.
- (b) The Council **HAS NOT** been informed by the Environment Protection Authority that the land is subject to a management order within the meaning of the Contaminated Land Management Act 1997.

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

- (c) The Council **HAS NOT** been informed by the Environment Protection Authority that the land is subject of an approved voluntary management proposal within the meaning of the Contaminated Land Management Act 1997.
- (d) The Council **HAS NOT** been informed by the Environment Protection Authority that the land is subject of an ongoing maintenance order within the meaning of the Contaminated Land Management Act 1997.
- (e) The land **IS NOT** the subject of a site audit statement within the meaning of the Contaminated Land Act 1997 that has been provided to the Council.

Note: Section 26 of the *Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009* provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act.

Information under Section 10.7(5)

As at the date of this certificate, the abovementioned land is also affected as follows:

(NOTE: SECTION 10.7(6) STATES THAT A COUNCIL SHALL NOT INCUR ANY LIABILITY IN RESPECT OF ANY ADVICE PROVIDED IN GOOD FAITH PURSUANT TO SECTION 10.7(5))

DCP's, Contribution Plans & Planning Agreements

DRAFT CONTRIBUTIONS PLAN 2018 - ON EXHIBITION 26 SEPTEMBER 2018 to 26 OCTOBER 2018 (51680E) (MIN18.259)

The Draft Contributions Plan 2018 is a review of the existing Contributions Plan 2010. The existing Plan allows Council to levy contributions for development applications and complying development certificates for land with the Shoalhaven Local Government Area, to enable the provision of community infrastructure projects such as roads, drainage, community buildings, public open space, and the like. The main components of the review are:

1. Revision of the content of the Plan.
2. Review and rationalisation of projects within the Plan, including the addition of new projects, deletion of outdated or redundant projects, and creation of a pooled 'recoupment fund'.
3. Creation of an updated website, including a new online Contributions Calculator.

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

GROWTH MANAGEMENT STRATEGY 2019-2041 DISCUSSION PAPER - ON
EXHIBITION 7 NOVEMBER 2018 to 7 DECEMBER 2018 - EXTENDED TILL 2ND
JANUARY 2019 (18107E) (MIN18.879)

The Shoalhaven Growth Management Strategy (GMS) is a strategic document that is intended to guide the future growth of Shoalhaven to accommodate its growing population while maintaining and protecting the social, economic and environmental values of the City.

The exhibited GMS 2019-2041 Discussion Paper and accompanying Character Assessments aim to initiate discussion within and between the local community and Council to determine if the policy directions outlined in the GMS Version 1 are still valid, and if further refinement of these policies is required.

The GMS 2019-2041 Discussion Paper looks at where we are now, where we want to be and asks how we get there. The GMS 2019-2041 Discussion Paper asks the community to think about how the Shoalhaven LGA should grow in the future, in particular:

- Where and how should growth occur?
- Which areas should be protected and why?
- What trade-offs are acceptable to achieve desired outcomes?

Matters Affecting This Land

No. 1 - DEVELOPMENT STANDARDS BERRY LOTS 1 & 2 DP 1073922 Concurrence under SEPP No. 1 was obtained from the NSW Dept of Planning on 21/07/2004, to a variation of the development standards, to permit the subdivision creating these lots subject to the following conditions.

There should be no further subdivisions and dwelling entitlements applied to lot 2: and Lot 1 should only be used for the purposes of an approved SEPP5 development. (SF 9541)

Advice to Council on 3 November 2006 confirms information previously provided by The Department of Defence, that the subject land is within HMAS Albatross Military Aircraft Operating Area. Specific heights can be obtained by contacting HMAS Albatross at Nowra.

Roads and Maritime Services advises that the Foxground and Berry Bypass is currently under construction. It will provide a four-lane highway with median separation for 12.5 kilometres of the Princes Highway between Toolijooa Road at Gerringong to just south of Andersons Lane at Berry. The bypass is expected to be completed in late 2018. Detailed information on the Foxground and Berry Bypass project, including project updates and changed traffic conditions, can be viewed on the Roads and Maritime project website at www.rms.nsw.gov.au/fb

The land adjoins, or, is in the vicinity of, the Foxground and Berry Bypass project corridor. For further information, contact must be made to the Roads and Maritime Southern Regional Office on 131782.

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

Matters Affecting The Whole Of The City

ACID SULFATE SOILS - Large areas of the coastal zone of NSW have the potential to be affected by acid sulfate soils which become problematic if exposed during excavations or similar activities. The Dept of Land & Water Conservation have maps which indicate the potential occurrence of acid sulfate soils. Prior to undertaking work which involves substantial soil disturbance, you should ascertain the possibility of acid sulfate soils existing on your property. Enquiries to NSW Department of Planning & Environment.

DEVELOPMENT ADJOINING NARROW LANEWAYS - INTERIM POLICY
Council resolved on 6 November 2018 to adopt an interim policy position regarding development adjoining narrow laneways. The Interim Policy provides direction regarding access, servicing, design and use of narrow laneways as a primary frontage. Contact Council's Planning, Environment & Development Group for further information. (MIN18.891) (57914E)

POLICY - CAR PARKING WAIVER - CHANGE OF USE DEVELOPMENT IN TRADITIONAL RETAIL CENTRES
Council resolved on 30 October 2018 to adopt a policy position to waive car parking requirements for change of use development in traditional retail centres. Contact Council's Planning, Environment & Development Group for further information. (MIN18.880) (POL18/73)

Council policy "Provision of Water and Sewerage Infrastructure - Development Not Included in Development Servicing Plans" shall apply to all lands which have not been included in its water supply and/or sewerage services development servicing plans.

Further information can be found on Council's website [Provision of Water and Sewerage Infrastructure](#)

CATS AND DOGS: IMPACTS ON NATIVE FAUNA
Council resolved on 21 February 2017 in order to protect populations of native fauna, including threatened species, from impacts associated with the keeping of domestic cats and dogs within certain development, in accordance with the *Environmental Planning & Assessment Act, 1979* and the *Threatened Species Conservation Act, 1995*. That appropriate restrictions on title or conditions of consent for the management of companion animals may be applied in sensitive environmental locations" (23139E)(MIN17.95)

INFORMATION REGARDING LOOSE-FILLED ASBESTOS INSULATION
Some residential homes located in NSW have been identified as containing loose-fill asbestos insulation, for example in the roof space. NSW Fair Trading maintains a Register of homes that are affected by loose-fill asbestos insulation.

You should make your own enquiries as to the age of the buildings on the land to which this certificate relates and, if it contains a building constructed prior to 1980, Council recommends that any potential purchaser obtain advice from a licensed asbestos assessor to determine whether loose-fill asbestos is present in any building on the land and, if so, the health risks (if any) this may pose for the building's occupants.

Contact NSW Fair Trading for further information.

PLANNING CERTIFICATE UNDER SECTION 10.7
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979

Certificate No: 2018/04874

Pursuant to section 369A of the Mining Act 1992, Department of Planning and Environment have identified all land within the Local Government Area of Shoalhaven City Council to be named Fossicking District 68.

Contact NSW Planning & Environment Resources & Energy for further information.

for R D Pigg,
GENERAL MANAGER

APPENDIX D

NSW EPA RECORD OF NOTICES & ENVIRONMENT PROTECTION LICENCES

Contaminated land - record of notices

Record under section 58 of the Contaminated Land Management Act 1997

This record is maintained by OEH in accordance with Part 5 of the [Contaminated Land Management Act 1997](#) (CLM Act).

The record **does** provide

- ✓ a record of written notices issued by OEH under the CLM Act, including preliminary investigation orders.
- ✓ the names of the sites, owners or occupiers **at the time of OEH action** in relation to the site
- ✓ copies of site audit statements (SAS) provided to OEH under section 52 of the CLM Act and relating to significantly contaminated land.

The record **does not** provide

- ✗ a record of all contaminated land in NSW. [See frequently asked questions](#)
- ✗ a list of [notifications of contamination](#) that OEH receives.
- ✗ the names of the sites, owners or occupiers if it changes **after OEH action** in relation to the site.
- ✗ some [personal information](#).

... [more about the CLM record of notices](#)

From 1 July 2009 there were changes to the terminology of certain OEH actions under the CLM Act. See the [list of these changes](#).

The record includes notices issued under sections 35 and 36 of the Environmentally Hazardous Chemicals Act 1985. These sections have been repealed. These notices are treated by the CLM Act as management orders.

Before using the record of notices see the [Disclaimer and terms of use](#).

As at Tuesday, 5 February 2019 there are 1549 notices in the record relating to 373 sites.

Your search for: Suburb: BERRY

did not find any records in our database.

If a site does not appear on the record it may still be affected by contamination. For example:

- Contamination may be present but the site has not been regulated by the EPA under the Contaminated Land Management Act 1997 or the Environmentally Hazardous Chemicals Act 1985.
- The EPA may be regulating contamination at the site through a licence or notice under the Protection of the Environment Operations Act 1997 (POEO Act).
- Contamination at the site may be being managed under the [planning process](#).

More information about particular sites may be available from:

- The [POEO public register](#)
- The appropriate planning authority: for example, on a planning certificate issued by the local council under [section 149 of the Environmental Planning and Assessment Act](#).

See [What's in the record and What's not in the record](#).

If you want to know whether a specific site has been the subject of notices issued by the EPA under the CLM Act, we suggest that you search by Local Government Area only and carefully review the sites that are listed.

This public record provides information about sites regulated by the EPA under the Contaminated Land Management Act 1997, including sites currently and previously regulated under the Environmentally Hazardous Chemicals Act 1985. Your inquiry using the above search criteria has not matched any record of current or former regulation. You should consider searching again using different criteria. The fact that a site does not appear on the record does not necessarily mean that it is not affected by contamination. The site may have been notified to the EPA but not yet assessed, or contamination may be present but the site is not yet being regulated by the EPA. Further information about particular sites may be available from the appropriate planning authority, for example, on a planning certificate issued by the local council under section 149 of the Environmental Planning and Assessment Act. In addition the EPA may be regulating contamination at the site through a licence under the Protection of the Environment Operations Act 1997. You may wish to search the POEO public register. List of NSW Contaminated Sites Notified to EPA as of 9 January 2019

Background

A strategy to systematically assess, prioritise and respond to notifications under Section 60 of the *Contaminated Land Management Act 1997* (CLM Act) has been developed by the EPA. This strategy acknowledges the EPA's obligations to make information available to the public under *Government Information (Public Access) Act 2009*.

When a site is notified to the EPA, it may be accompanied by detailed site reports where the owner has been proactive in addressing the contamination and its source. However, often there is minimal information on the nature or extent of the contamination.

For some notifications, the information indicates the contamination is securely immobilised within the site, such as under a building or carpark, and is not currently causing any offsite consequences to the community or environment. Such sites would still need to be cleaned up, but this could be done in conjunction with any subsequent building or redevelopment of the land. These sites may not require intervention under the CLM Act, but could be dealt with through the planning and development consent process.

Where indications are that contamination is significant enough to warrant regulation having regard to the matters in section 12 of the CLM Act, the EPA may apply the regulatory provisions of the CLM Act to have the appropriate person (for example, the responsible polluter and/or landowner) investigate and remediate the site.

Where the EPA reasonably suspects that a pollution incident is occurring (or has occurred) at a premise, the EPA, as the appropriate regulatory authority, may choose to regulate the incident and any resulting contamination under the POEO Act by ordering the occupier or the owner to carry out certain actions.

As such, the sites notified to the EPA and presented in the following table are at various stages of the assessment and/or remediation process. Understanding the nature of the underlying contamination, its implications and implementing a remediation program where required, can take a considerable period of time. The tables provide an indication, in relation to each nominated site, as to the management status of that particular site. Further detailed information may be available from the EPA or the responsible landowner.

The following questions and answers may assist those interested in this issue:

Frequently asked questions

What is the difference between the “List of NSW Contaminated Sites Notified to the EPA” and the “Contaminated Land: Record of Notices”?

A site will be on the Contaminated Land: Record of Notices only if the EPA has issued a regulatory notice in relation to the site under the *Contaminated Land Management Act 1997*.

The sites appearing on this “List of NSW contaminated sites notified to the EPA” indicate that the notifiers consider that the sites are contaminated and warrant reporting to the EPA. However, the contamination may or may not be significant enough to warrant regulation by the EPA. The EPA needs to review and, if necessary, obtain more information before it can make a determination as to whether the site warrants regulation.

Why my site appears on the list?

Your site appears on the list because of one or more of the following reasons:

- The site owner and/or the person partly or fully responsible for causing the contamination notified to the EPA about the contamination under Section 60 of the *Contaminated Land Management Act 1997*. In other words, the site owner or the “polluter” believes the site is contaminated.
- The EPA has been notified via other means and is satisfied that the site is or was contaminated.

Does the list contain all contaminated sites in NSW?

No. The list only contains contaminated sites that the EPA is aware of, with regard to its regulatory role under the CLM Act. An absence of a site from the list does not necessarily imply the site is not contaminated.

The EPA relies upon responsible parties to notify contaminated sites.

How are these notified contaminated sites managed by the EPA?

There are different ways that the EPA manages these notified contaminated sites. First, an initial assessment is carried out by the EPA. At the completion of the initial assessment, the EPA may take one or more than one of the following management approaches:

- The contamination warrants the EPA’s direct regulatory intervention either under the *Contaminated Land Management Act 1997* or the *Protection of the Environment Operations Act 1997* (POEO Act), or both. Information about current or past regulatory action on this site can be found on EPA website.
- The contamination with respect to the current use or approved use of the site, as defined under the *Contaminated Land Management Act 1997*, is not significant enough that it warrants EPA regulation.
- The contamination does not require EPA regulation and can be managed by a planning approval process.
- The contamination is related to an operational Underground Petroleum Storage System, such as a service station or fuel depot. The contamination may be managed under the POEO Act and the Protection of the Environment Operation (Underground Petroleum Storage Systems) Regulation 2014.
- The contamination is being managed under a specifically tailored program operated by another agency (for example the Department of Industry and Investment’s *Derelict Mines Program*).

I am the owner of a site that appears on the list. What should I do?

First of all, you should ensure the current use of the site is compatible with the site contamination. Secondly, if the site is the subject of EPA regulation, make sure you comply with the regulatory requirements, and you have considered your obligations to notify other parties who may be affected.

If you have any concerns, contact us and we may be able to offer you general advice, or direct you to accredited professionals who can assist with specific issues.

I am a prospective buyer of a site that appears on the list. What should I do?

You should seek advice from the vendor to put the contamination issue into perspective. You may need to seek independent expert advice.

The information provided in the list is meant to be indicative only, and a starting point for your own assessment. Site contamination as a legacy of past site uses is not uncommon, particularly in an urbanised environment. If the contamination on a site is properly remediated or managed, it may not materially impact upon the intended future use of the site. However, each site needs to be considered in context.

List of NSW Contaminated Sites Notified to the EPA

Disclaimer

The EPA has taken all reasonable care to ensure that the information in the list of contaminated sites notified to the EPA (the list) is complete and correct. The EPA does not, however, warrant or represent that the list is free from errors or omissions or that it is exhaustive.

The EPA may, without notice, change any or all of the information in the list at any time.

You should obtain independent advice before you make any decision based on the information in the list.

The list is made available on the understanding that the EPA, its servants and agents, to the extent permitted by law, accept no responsibility for any damage, cost, loss or expense incurred by you as a result of:

1. any information in the list; or
2. any error, omission or misrepresentation in the list; or
3. any malfunction or failure to function of the list;
4. without limiting (2) or (3) above, any delay, failure or error in recording, displaying or updating information.

Site Status	Explanation
Under assessment	The contamination is being assessed by the EPA to determine whether regulation is required. The EPA may require further information to complete the assessment. For example, the completion of management actions regulated under the planning process or <i>Protection of the Environment Operations Act 1997</i> . Alternatively, the EPA may require information via a notice issued under s77 of the <i>Contaminated Land Management Act 1997</i> or issue a Preliminary Investigation Order.
Regulation under CLM Act not required	The EPA has completed an assessment of the contamination and decided that regulation under the <i>Contaminated Land Management Act 1997</i> is not required.
Regulation being	The EPA has completed an assessment of the contamination and decided

finalised	that the contamination is significant enough to warrant regulation under the <i>Contaminated Land Management Act 1997</i> . A regulatory approach is being finalised.
Contamination currently regulated under CLM Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the <i>Contaminated Land Management Act 1997</i> (CLM Act). Management of the contamination is regulated by the EPA under the CLM Act. Regulatory notices are available on the EPA's Contaminated Land Public Record .
Contamination currently regulated under POEO Act	Contamination is currently regulated under the <i>Protection of the Environment Operations Act 1997</i> (POEO Act). The EPA as <i>the appropriate regulatory authority</i> reasonably suspects that a pollution incident is occurring/ has occurred and that it requires regulation under the POEO Act. The EPA may use environment protection notices, such as clean up notices, to require clean up action to be taken. Such regulatory notices are available on the POEO public register .
Contamination being managed via the planning process (EP&A Act)	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. The contamination of this site is managed by the consent authority under the <i>Environmental Planning and Assessment Act 1979</i> (EP&A Act) planning approval process, with EPA involvement as necessary to ensure significant contamination is adequately addressed. The consent authority is typically a local council or the Department of Planning and Environment.
Contamination formerly regulated under the CLM Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation under the <i>Contaminated Land Management Act 1997</i> (CLM Act). The contamination was addressed under the CLM Act.
Contamination formerly regulated under the POEO Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed under the <i>Protection of the Environment Operations Act 1997</i> (POEO Act).
Contamination was addressed via the planning process	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed by the appropriate consent authority via the planning process under the

(EP&A Act)	<i>Environmental Planning and Assessment Act 1979</i> (EP&A Act).
Ongoing maintenance required to manage residual contamination (CLM Act)	The EPA has determined that ongoing maintenance, under the <i>Contaminated Land Management Act 1997</i> (CLM Act), is required to manage the residual contamination. Regulatory notices under the CLM Act are available on the EPA's Contaminated Land Public Record .

APPENDIX F

ENVIRONMENTAL NOTES

IMPORTANT INFORMATION REGARDING YOUR ENVIRONMENTAL SITE ASSESSMENT

These notes have been prepared by Geotechnique Pty Ltd, using guidelines prepared by the ASFE (Associated Soil and Foundation Engineers). The notes are offered to assist in the interpretation of your environmental site assessment report.

REASONS FOR AN ENVIRONMENTAL ASSESSMENT

Environmental site assessments are typically, though not exclusively, performed in the following circumstances:

- As a pre-acquisition assessment on behalf of either a purchaser or a vendor, when a property is to be sold
- As a pre-development assessment, when a property or area of land is to be redeveloped, or the land use has changed e.g. from a factory to a residential subdivision
- As a pre-development assessment of greenfield sites, to establish baseline conditions and assess environmental, geological and hydrological constraints to the development of e.g. a landfill
- As an audit of the environmental effects of previous and present site usage

Each circumstance requires a specific approach to the assessment of soil and groundwater contamination. In all cases the objective is to identify and if possible quantify the risks that unrecognised contamination poses to the ongoing proposed activity. Such risks may be both financial (clean-up costs or limitations in site use) and physical (health risks to site users or the public).

ENVIRONMENTAL SITE ASSESSMENT LIMITATIONS

Although information provided by an environmental site assessment can reduce exposure to the risk of the presence of contamination, no environmental site assessment can eliminate the risk. Even a rigorous professional assessment may not detect all contamination within a site. Contaminants may be present in areas that were not surveyed or sampled, or may migrate to areas which did not show signs of contamination when sampled. Contaminant analysis cannot possibly cover every type of contaminant that may occur; only the most likely contaminants are screened.

AN ENVIRONMENTAL SITE ASSESSMENT REPORT IS BASED ON A UNIQUE SET OF PROJECT SPECIFIC FACTORS

In the following events and in order to avoid cost problems, you should ask your consultant to assess any changes in the conclusion and recommendations made in the assessment:

- When the nature of the proposed development is changed e.g. if a residential development is proposed, rather than a commercial development
- When the size or configuration of the proposed development is altered e.g. if a basement is added
- When the location or orientation of the proposed structure is modified
- When there is a change of land ownership, or
- For application to an adjacent site

ENVIRONMENTAL SITE ASSESSMENT FINDINGS ARE PROFESSIONAL ESTIMATES

Site assessment identifies actual sub-surface conditions only at those points where samples are taken, when they are taken. Data obtained from the sampling and subsequent laboratory analyses are interpreted by geologists, engineers or scientists and opinions are drawn about the overall sub-surface conditions, the nature and extent of contamination, the likely impact on any proposed development and appropriate remediation measures. Actual conditions may differ from those inferred, because no professional, no matter how qualified and no sub-surface exploration program, no matter how comprehensive, can reveal what is hidden by earth, rock and time. The actual interface between materials may be far more gradual or abrupt than an assessment indicates. Actual conditions in areas not sampled may differ from predictions. Nothing can be done to prevent the unanticipated, however, steps can be taken to help minimise the impact. For this reason site owners should retain the services of their consultants throughout the development stages of the project in order to identify variances, conduct additional tests that may be necessary and to recommend solutions to problems encountered on site.

Soil and groundwater contamination is a field in which legislation and interpretation of legislation by government departments is changing rapidly. Whilst every attempt is made by Geotechnique Pty Ltd to be familiar with current policy, our interpretation of the investigation findings should not be taken to be that of the relevant authority. When approval from a statutory authority is required for a project, approval should be directly sought.

STABILITY OF SUB-SURFACE CONDITIONS

Sub-surface conditions can change by natural processes and site activities. As an environmental site assessment is based on conditions existing at the time of the investigation, project decisions should not be based on environmental site assessment data that may have been affected by time. The consultant should be requested to advise if additional tests are required.

ENVIRONMENTAL SITE ASSESSMENTS ARE PERFORMED FOR SPECIFIC PURPOSES AND CLIENTS

Environmental site assessments are prepared in response to a specific scope of work required to meet the specific needs of specific individuals e.g. an assessment prepared for a consulting civil engineer may not be adequate to a construction contractor or another consulting civil engineer.

An assessment should not be used by other persons for any purpose or by the client for a different purpose. No individual, other than the client, should apply an assessment, even for its intended purpose, without first conferring with the consultant. No person should apply an assessment for any purpose other than that originally contemplated, without first conferring with the consultant.

MISINTERPRETATION OF ENVIRONMENTAL SITE ASSESSMENTS

Costly problems can occur when design professionals develop plans based on misinterpretation of an environmental site assessment. In order to minimise problems, the environmental consultant should be retained to work with appropriate design professionals, to explain relevant findings and to review the adequacy of plans and specifications relative to contamination issues.

LOGS SHOULD NOT BE SEPARATED FROM THE REPORT

Borehole and test pit logs are prepared by environmental scientists, engineers or geologists, based upon interpretation of field conditions and laboratory evaluation of field samples. Logs are normally provided in our reports and these would not be redrawn for inclusion in site remediation or other design drawings, as subtle but significant drafting errors or omissions may occur in the transfer process. Photographic reproduction can eliminate this problem, however, contractors can still misinterpret the logs during bid preparation if separated from the text of the assessment. Should this occur, delays and disputes, or unanticipated costs may result.

To reduce the likelihood of borehole and test pit log misinterpretation, the complete assessment should be available to persons or organisations involved in the project, such as contractors, for their use. Denial of such access and disclaiming responsibility for the accuracy of sub-surface information does not insulate an owner from the attendant liability. It is critical that the site owner provides all available site information to persons and organisations, such as contractors.

READ RESPONSIBILITY CLAUSES CLOSELY

An environmental site assessment is based extensively on judgement and opinion; therefore, it is necessarily less exact than other disciplines. This situation has resulted in wholly unwarranted claims being lodged against consultants. In order to aid in prevention of this problem, model clauses have been developed for use in written transmittals. These are definitive clauses, designed to indicate consultant responsibility. Their use helps all parties involved recognise individual responsibilities and formulate appropriate action. Some of these definitive clauses are likely to appear in the environmental site assessment and you are encouraged to read them closely. Your consultant will be happy to give full and frank answers to any questions you may have.
