 - (ii) The Valuer is required to determine the market value of the Education Land, each a freehold lot with vacant possession as at the date of inspection.

- (d) In the event that no less than two of the comparable sales analysed cannot reasonably be considered as being directly comparable (in terms of, but not restricted to, date of sale, size, development capability, zoning and physical and ecological constraints etc) then each Valuer must undertake a feasibility or residual land value approach to the valuation.
- (e) In the event that the valuations vary by less than 10%, the average of the valuation amounts shall be adopted as the value for the subject land.
- (f) In the event that the valuations vary by more than 10%, then the Valuers shall meet to compare the valuations and attempt to find common ground (whether this be mutual agreement on value or, at the very least, agreement as to certain valuation drivers, methodologies or inputs). Following this meeting, the Valuers shall review their valuations. If the valuations continue to vary by more than 10%, the valuation to apply to the subject land will be determined by a further Valuer appointed by the President of the Australian Property Institute (NSW Division). That further Valuer shall act as an expert and not as an arbitrator whose decision is final and binding, in the absence of manifest error.
