12.4 Consideration GST exclusive

Unless otherwise expressly stated, all prices or other sums payable or consideration to be provided under this Deed are exclusive of GST. 12.5 Additional Amounts for GST

To the extent an amount of GST is payable on a supply made by a party (**Supplier**) under or in connection with this Deed (the **GST Amount**), the Recipient will pay to the Supplier the GST Amount. - (a) the Developer makes payment of the GST Amount on behalf of the Minister, including any gross up that may be required; and
- (b) the Developer provides a Tax Invoice to the Minister.

12.6 Non monetary consideration

Clause 12.5 applies to non-monetary consideration.

This Deed must not be varied except by a later written document executed by all parties.

16.5 Waiver

A right created by this Deed cannot be waived except in writing signed by the party entitled to that right. Delay by a party in exercising a right does not constitute a waiver of that right, nor will a waiver (either wholly or in part) by a party of a right operate as a subsequent waiver of the same right or of any other right of that party.

Each party must promptly execute all documents and do everything necessary or desirable to give full effect to the arrangements contained in this Deed.

If any clause or part of any clause is in any way unenforceable, invalid or illegal, it is to be read down so as to be enforceable, valid and legal. If this is not possible, the clause (or where possible, the offending part) is to be severed from this Deed without affecting the enforceability, validity or legality of the remaining clauses (or parts of those clauses) which will continue in full force and effect.

16.10 Preservation of existing rights

The expiration or termination of this Deed does not affect any right that has accrued to a party before the expiration or termination date.

16.11 No merger

Any right or obligation of any party that is expressed to operate or have effect on or after the completion, expiration or termination of this Deed for any reason, will not merge on the occurrence of that event but will remain in full force and effect.

16.14 Good faith

Each party must act in good faith towards all other parties and use its best endeavours to comply with the spirit and intention of this Deed.

16.15 No fetter

Nothing in this Deed shall be construed as requiring the Minister to do anything that would cause the Minister to breach any of the Minister's obligations at law and, without limitation, nothing in this Deed shall be construed as limiting or fettering in any way the discretion of the Minister in exercising any of the Minister's statutory functions, powers, authorities or duties.

- (vi) subject to compliance with Environmental Law, where Contamination is identified in the Preliminary Assessment, RMS will, where RMS determines, acting reasonably that it is appropriate to do so, utilise any Contaminated materials (including soils and building and demolition waste) on the land to the best extent possible and not dispose of any Contaminated materials off-site;
- (vii) subject to **clause 7.3(a)(v)**, if any Contamination on the Dedicated Land is discovered that is not identified in the Preliminary Assessment, that additional Contamination and its Remediation, remains the responsibility of Landcom or Dahua 2 (as the case may be) and the following process will apply:

 - (D) subject to **clause 7.3(a)(vii)(C)**, the standard of any Remediation of such Contamination should be only to make the affected Dedicated Land suitable for use as a road; and
- (viii) Landcom and Dahua 2 (as the case may be) will provide RMS with all necessary documents which are relevant to the transfer of ownership of the Dedicated Land to RMS.
- (b) If Landcom and Dahua 2 (as the case may be) fails to transfer the Dedicated Land, or any part of the Dedicated Land, in accordance with **clause 7.3(a)**, the parties acknowledge and agree that RMS may determine, in its absolute discretion, to compulsorily acquire the Dedicated Land at any time.
 - (c) If RMS determines to compulsorily acquire the Dedicated Land, or any part of the Dedicated Land, under **clause 7.3(b)**, the parties agree:
 - (i) for the purposes of section 10A(3) of the Just Terms Act, to a shorter negotiation period of 5 Business Days; and

Annexure F

Spring Farm SRG Terms of Reference

1 Background

Spring Farm Parkway is a potential east-west road that would link Camden Bypass at Spring Farm to Menangle Road at Menangle Park, including connections to the M31 Hume Highway. When completed, the proposed road would service existing and future residential land releases including Spring Farm, Elderslie, Menangle Park and Mount Gilead and will provide an alternative route to Narellan Road with access to the Hume Highway.

The NSW Government 2016-17 budget has committed \$30 million under the Housing Acceleration Fund Round 4 to fast track planning and Stage 1 construction for the Parkway. RMS has commenced investigations and plans to deliver a strategic design for the corridor and a business case for construction of Stage 1 within the available funding.

RMS is working with Landcom and the Dahua Group to develop a funding agreement for funding towards the delivery of Stage 1 to support the Menangle Park rezoning as endorsed by Campbelltown Council in November/December 2016. Endorsement was on condition of satisfactory arrangements towards the Stage 1 infrastructure prior to sub-division. The Landcom and the Dahua Group contribution to funding is estimated at over 74% of the total funding for Stage 1 of the Spring Farm Parkway.

The design and cross-section developed by Landcom for Stage 1 of the Spring Farm Parkway are generally being used to guide design development and the limits of the Required Works. RMS can vary the ultimate design of Stage 1 to enable delivery of access to the Menangle Park development within the total funding available.

The specifications and the project estimate will be refined as investigations and NSW Gateway approvals progress.

2 Role and Purpose

The intent of this stakeholder reference group is to facilitate cooperation between key stakeholders and RMS during planning, investigations and feasibility assessment for delivery of Stage 1 for the Spring Farm Parkway.

This process will allow for open communication and transparency through the development of the project and finalisation of the specifications and final project estimate for Stage 1.

As funding contributions from Landcom and the Dahua Group are capped and RMS does not have the capacity to provide for any funding gaps, this group will work together to share information and maintain a high level of awareness of investigations, risks and mitigation measures to achieve the outcomes necessary to provide access to Landcom's and the Dahua Group's development in Menangle Park within the available resources.

Key aspects will include:

- (a) ensuring the SRG is fully informed of progress of the Required Works during the term of development and delivery, including the design options and estimates to be included in the project business case;
- (b) ensuring the SRG is fully informed of changes to key program milestones/specifications and/or funding issues and contribute to problem solving;
- (c) discussing major issues and risks with the potential to impact the cost and delivery of the Required Works;
- (d) facilitating an understanding at the SRG of the project management and NSW Gateway framework that is used by RMS to manage the project, control costs and provide value for money;

- (i) Meeting minutes will capture actions and assigned parties responsible for said actions, and these will be raised at subsequent sessions for redress.
- (j) Meetings will be held at least bi-monthly until the Final Business Case. After this, the frequency can be altered by agreement of all parties.
- (k) If sub-groups or specific meeting are required, these can be arranged outside of these times at a time convenient to sub-group members.
- (l) If site inspections are required and agreed to by RMS, these can be arranged at a time convenient to the members in accordance with the construction contractor's induction/other requirements.

6 Relationship to Existing Groups

The Stakeholder Reference Group will seek to resolve issues with the consensus of attendees.

At the outset, the group will seek endorsement of these Terms of Reference.

The Stakeholder Reference Group will continue to report and make recommendations to the HAF PCG regarding program, specifications and/or funding to support the Project.

7 Exclusions

This is not a Project Control Group and relies on the willingness of the parties to work together to resolve issues and successfully develop and deliver optimum outcomes for the Project.

It does not replace existing governance, contractual, statutory or RMS procedures/process. RMS will follow NSW Government and RMS guidelines during project development including for Stakeholder and Community consultation and property acquisition.

The HAF/RMS Governance processes for the Project will apply including INSW Gateway approvals.

Any disputes will be referred to the HAF PCG for consideration.

The stakeholders identified in this group are encouraged to input into these processes.

Membership does not ensure favourable decisions or outcomes but allow issues to be aired and discussed.

This does not replace obligations made in relevant Voluntary Planning Agreement or Transport Infrastructure Contributions Deeds.
