- the provision of (or the recoupment of the cost of providing) public amenities or public services; and
- the provision of (or the recoupment of the cost of providing) transport or other infrastructure relating to land.

This is because it will ensure that the Developer makes an appropriate contribution towards the provision of services, facilities and infrastructure needed for the Subject Land.

How the Planning Agreement Promotes the Public Interest

The Planning Agreement promotes the public interest by ensuring that an appropriate contribution is made towards the provision of services, facilities and infrastructure to satisfy needs that arise from development of the Subject Land.

The Developer's offer to contribute towards the provision of State infrastructure will have a positive public impact on the public who will ultimately use the services, facilities and infrastructure.
