Assessment of Merits of Planning Agreement

The Public Purpose of the Planning Agreement

In accordance with section 7.4(2) of the Act, the Planning Agreement has the following public purpose:

- the provision of (or the recoument of the cost of providing) public amenities or public services;
- the provision of (or the recoument of the cost of providing) transport or other infrastructure relating to land.

The Minister and the Developer have assessed the Planning Agreement and both hold the view that the provisions of the Planning Agreement provide a reasonable means of achieving the public purpose set out above. This is because it will ensure that the Developer makes an appropriate contribution towards the provision of infrastructure, facilities and services.

How the Planning Agreement Promotes the Public Interest

The Planning Agreement promotes the public interest by ensuring that an appropriate contribution is made towards the provision of infrastructure, facilities and services to satisfy needs that arise from development of the Subject Land.

The Developer's offer to contribute towards the provision of designated State public infrastructure will have a positive impact on the public who will ultimately use it.

Requirements relating to Construction, Occupation and Subdivision Certificates

The Planning Agreement does not specify requirements that must be complied with prior to the issue of a construction certificate or an occupation certificate.

The Planning Agreement requires an instalment of the Development Contribution to be paid prior to the issue of the relevant subdivision certificate and therefore contains a restriction on the issue of a subdivision certificate within the meaning of section 6.15(1)(d) of the Act.
