### **Summary of Objectives, Nature and Effect of the Planning Agreement**

The Planning Agreement provides that the Developer will make a monetary contribution of \$91,250 per hectare of net developable area (subject to indexation in accordance with the Planning Agreement) (**Development Contribution**) for the purposes of the provision of designated State public infrastructure within the meaning of clause 6.1 of *Maitland Local Environmental Plan 2011 (LEP)*.

An instalment of the Development Contribution will be payable prior to the issue of each relevant subdivision certificate in accordance with Schedule 4 to the Planning Agreement.

The Developer is required to provide a \$20,000 bank guarantee in accordance with Schedule 5 to the Planning Agreement.

The objective of the Planning Agreement is to facilitate the delivery of the Developer's contributions towards the provision of designated State public infrastructure referred to in clause 6.1 of the LEP.

No relevant capital works program by the Minister is associated with the Planning Agreement.

### **Assessment of Merits of Planning Agreement**

#### **The Public Purpose of the Planning Agreement**

In accordance with section 7.4(2) of the Act, the Planning Agreement has the following public purpose:

- the provision of (or the recoupment of the cost of providing) public amenities or public services;
- the provision of (or the recoupment of the cost of providing) transport or other infrastructure relating to land.

The Minister and the Developer have assessed the Planning Agreement and both hold the view that the provisions of the Planning Agreement provide a reasonable means of achieving the public purpose set out above. This is because it will ensure that the Developer makes an appropriate contribution towards the provision of infrastructure, facilities and services.

#### **How the Planning Agreement Promotes the Public Interest**

The Planning Agreement promotes the public interest by ensuring that an appropriate contribution is made towards the provision of infrastructure, facilities and services to satisfy needs that arise from development of the Subject Land.

The Developer's offer to contribute towards the provision of designated State public infrastructure will have a positive impact on the public who will ultimately use it.

#### **Requirements relating to Construction, Occupation and Subdivision Certificates**

The Planning Agreement does not specify requirements that must be complied with prior to the issue of a construction certificate or an occupation certificate.

The Planning Agreement requires an instalment of the Development Contribution to be paid prior to the issue of the relevant subdivision certificate and therefore contains a restriction on the issue of a subdivision certificate within the meaning of section 6.15(1)(d) of the Act.
