

**Community Recognition Statement
Legislative Assembly of NSW**

JOHN WINTER

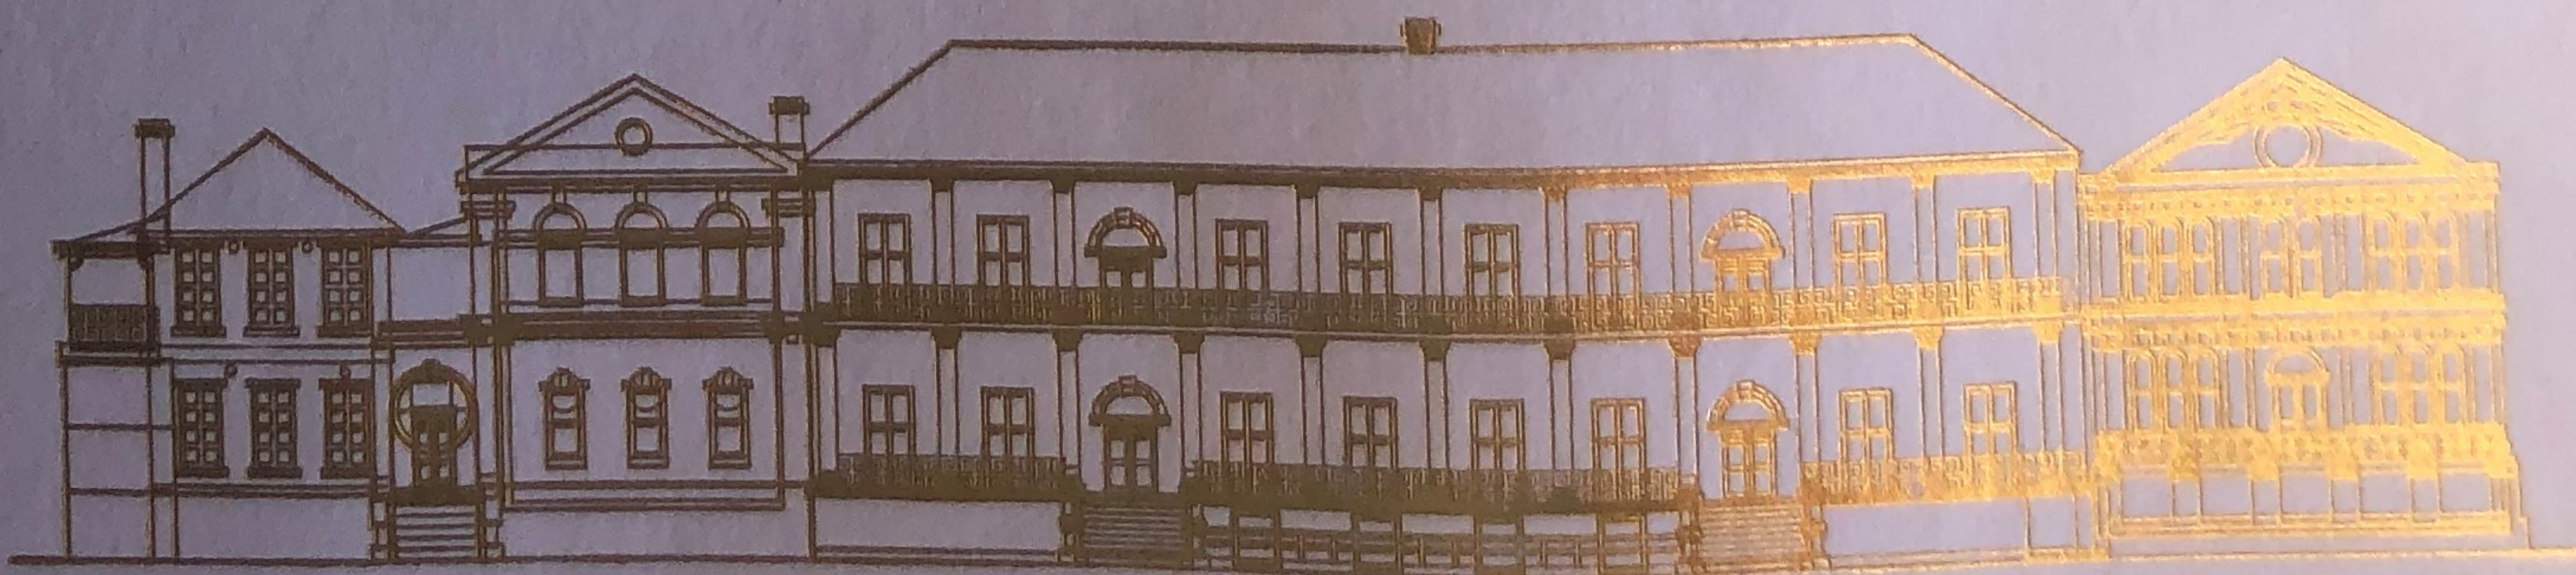

I recognise Northern Tablelands inventor John Winter, who has invented a biochar gasification plant that produces carbon-negative energy suitable for export as well as local use. Mr Winter's unique design sets his invention apart because it can scale up to whatever size is required. He is another example of Australian enterprise developed on farm and reaching global importance.

I congratulate John on his invention and its potential for improving the environment through carbon-rich soil fertility, water-holding capacity and crop productivity.

I commend John for his ingenuity and resourcefulness to meet a critical environmental need with a complex and sophisticated invention that may have international significance.

A handwritten signature in blue ink, reading "Adam Marshall", is positioned above the printed name.

Mr John Winter
PO Box 79
GLEN INNES NSW 2370

Dear Mr Winter

John,

Please find enclosed a copy of a Community Recognition Statement I had the pleasure of delivering in the NSW Legislative Assembly on Tuesday 16 March 2021.

It was a real honour to have the opportunity to share with my Parliamentary colleagues details of your invention – a biochar gasification plant that produces carbon negative energy.

Congratulations on your invention and improving the environment.

Yours sincerely

Adam Marshall

Well done John!
