Dear Henry

As discussed earlier on the phone, submissions closed last Friday for the Tempe South LATM study, and have invited 3 companies to respond to the LATM study:

- Traffix
- Bitzios Consulting
- Transport and Urban Planning Pty Ltd

Two quotations were received from Traffix (\$42,455 ex GST) and Bitzios (\$45,180 ex GST), with Transport and Urban Planning deciding not to provide a fee proposal.

We have undertaken a tender assessment taking into account the following mandatory criteria and scoring based on the selection criteria.

Mandatory Criteria:

- Quotations lodged by due date
- All parts of returnable schedules completed
- \$5M public liability insurance
- \$1M professional indemnity insurance

Selection Criteria (respective weighted scores):

- Price (30%)
- Extent of conformity, technical and commercial compliance with RFQ (15%)
- Quality of workmanship, past performance & experience in meeting the contract requirements (30%)
- Assessed capacity to perform the work including technical, managerial and physical resources to be applied to the contract & assessed financial capacity to perform the Contract (20%)
- Work health and safety, quality and environmental management systems and performance (5%)

At the completion of the tender evaluation, Bitzios Consulting was ranked first in the weighted scores. As per the MoU, I will await for your comments prior to contacting all consultants who provided a quote.

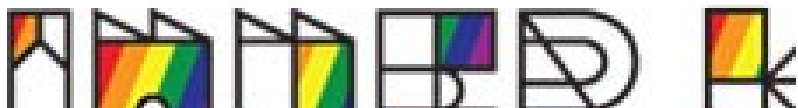

If you have any further questions please let me know.

Kind regards

Sunny Jo

Hi George,

Thank you for your email and responses in relation the Bunnings Tempe LATM Study..

Please let me know if I can assist in any way with the development of the LATM Consultant tender documentation.

Cheers,
Henry

Subject: RE: Bunnings Tempe - LATM Study

Hi Henry,

- Council will typically ask either 3 or 4 traffic consultants to tender for a study. From that we determine which consultant meets our criteria in relation to cost, experience, timeframes, methodology, etc. At this stage it has yet to be determined which consultants will be asked to tender and Sunny will make this decision when I hand over the finalised brief to him.
- Our experience is that 6 months is a typical duration for a Local Area Traffic Management Study. I don't want to commit to any solid timeframe at this stage because the consultant needs to provide a program of works including timeframes as part of their quote submission as well as the study needs to go through a Council and Traffic Committee process.

The brief will be finalised for Sunny Jo to move forward with early next week.

Happy to discuss.

Regards,

George

Hi George,

Happy New Year to you and your team!

Thank you for your email (below) in relation to Bunnings Tempe's LATM Study. Bunnings has reviewed the Draft Brief and Returnable Documents and are comfortable with their contents. We do however have two procedural items we would like to raise, being:

- Can I please ask you to email me who Council propose to approach to quote this work.
- In terms of program, do you consider the estimated 6 months to be a maximum of minimum duration to undertake the Study?

Cheers,
Henry

Hi Henry,

Please find attached the draft brief and returnable documents document for your review and comment.

Once these documents are finalised they will be sent out for quotation to 3 consultants.

If you have enquiries prior to the 13 January, 2020 you can contact Sunny Jo - Traffic and Parking Planner on 9392 5965 who will be available from 6th January, 2020

Happy to discuss.

Regards,

George
