
Item No: C1220(1) Item 16
Subject: NOTICE OF MOTION: TEMPE LOCAL AREA TRAFFIC MANAGEMENT
From: Councillor Victor Macri

MOTION:

THAT Council extend the Local Area Traffic Management (LATM) for Tempe to include a supplementary report on an investigation into the feasibility of the signalling the exit only from Bunnings through the existing driveway on the Princes Highway.

Background

The Local Area Traffic Management Scheme for South Tempe which is currently being undertaken as a result of the Bunnings development at the intersection of Smith Street and Princes Highway be extended to include as a supplementary report an investigation into the feasibility of signalling the Princes Highway access to Bunnings to allow for the right turn and left turn exit only onto the Princes Highway (whilst entry into the Bunnings site would be from Smith Street). It is envisaged that this proposal will reduce queuing on Smith Street as well as through access into Union Street which will ensure a reduction to the impact on the amenity of the residents as well as allowing for the safe operation of Tempe Primary School. An additional sum of \$6,000 be allocated towards this investigation and subsequent supplementary report.

Officer's Comments:

Comment from Director Infrastructure:

The Bunnings Tempe development application was approved on the basis of access to and from Smith Street. The proposed modification, to exit the site via the Princes Highway, would require a s4.55 modification to the current approved Development consent.

Council will need to identify a budget source for the proposed additional \$6,000.
